► Features

FreeSync Technology

AMD FreeSync technology synchronizes the GPU and the monitor so frames are displayed when ready: no tearing or stuttering

Why FreeSync is better

- High performance solution with all the benefits of variable refresh rate technology
- Based on industry standards, not expensive proprietary solutions
- Cheaper and easier to implement: no additional monitor hardware, no license fees

144Hz Refresh Rate and 1ms Response Time

Ultra-fast 144Hz refresh rate and 1ms response time enable the sharpest responses.

Flicker Free Technology

Most LED monitors use PWM (pulse width modulation) to control brightness; the pulsing creates flicker that may cause discomfort, headaches and eye strain, especially in low-light environments. Flicker Free technology uses a smooth DC (direct current) backlight system.

Game Color

With AOC Game Color, adjust color saturation and grey level with 20 levels of detail for a better game experience.

DialPoint

The "Dial Point" function places an aiming indicator in the center of the screen, to help gamers to play First Person Shooter (FPS) games with an accurate and precise aiming.

Low Input Lag

Decreased delay between video source and display. With special Low Input Lag control, the G2590PX will ensure you hit the target the first time.

Height Adjustment Stand

This feature not only allows gamers to adjust the height of the monitor to their personal preference, but also to swivel it for better viewing from different angles.

Low Blue Mode

AOC Low Blue Mode filters harmful short-wave blue light, with 4 levels that suit different viewing situations.

Multimedia-Ready with HDMI Input

HDMI (High-Definition Multimedia Interface) is the digital video and sound standard for connecting the latest consumer electronics like Blu-ray players and game consoles.

DisplayPort is designed to be the future digital video and sound connection standard, capable of higher performance convenience than older formats.

► Specifications

Model Name	G2590PX
Panel Size	24.5"
Pixel Pitch (mm)	0.2832 (H) x 0.2802 (V)
Effective Viewing Area (mm)	543.744 (H) x 302.616 (V)
Brightness (typical)	400 cd/m ²
Contrast Ratio	1000 : 1 (Typical) 80 Million : 1 (DCR)
Smart Response	1ms (GtG)
Viewing Angle	170° (H) / 160° (V) (CR>10)
Color Gamut	NTSC 83.6% (CIE 1976) / sRGB 103.7% (CIE 1931)
Optimum Resolution	1920 x 1080 @ 60Hz – D-Sub 1920 x 1080 @ 144Hz – HDMI & DisplayPort
Display Colors	16.7 Million (RGB 8-bits)
Signal Input	VGA, HDMI 1.4 x 2, DisplayPort 1.2, USB 3.0 x 4
Power Supply	100-240V ~ 1.5A, 50/60Hz
Smart Power Mode: Typical	23W
Built-in Speakers	2W x 2
Regulatory Approvals	CE / FCC / CB / VCCI / PSE / J-Moss / BSMI / Windows 8/8.1 / Windows 10 / cTUVus
Wall-Mount	100mm x 100mm
Cabinet Color	Black & Red
Stand Tilt	3.5° ± 1.5° ~ 21.5° ± 1.5°
Product with Stand (mm)	383.2 ~ 513.2 (H) x 558.6 (W) x 199.5 (D)
Packaging (mm)	417 (H) x 626 (W) x 203 (D)
Weight (Net/Gross) kg	5.43 / 7.2
