

Photo All-In-One with 2.0" TFT display, memory card slots and cost-saving individual ink tanks. Quality prints, copies and scans.

Everyday Range

The PIXMA MP550 is an everyday solution to producing quality prints, copies and scans at home while using cost-saving individual ink tanks. 2-Way paper feeding enables printing without changing the paper type between plain and photo paper. View, edit and enhance your images on a 2.0" colour TFT with no need for a computer. High resolution and microscopic ink dots ensure you produce quality borderless photos at home. Print in approximately 39 sec for a 6" x 4" photo³. Scan sharp photos and documents at up to 2400 x 4800 dpi.

Key Features

As a Printer

- High quality photos and documents with 1 picolitre FINE print head technology and 9600 x 2400 dpi¹
- Fast document printing approx 9.2ipm in black and 6.0ipm in colour³
- Photo lab quality prints delivered in high speeds of approx 39 seconds³
- Direct photo printing using PictBridge or directly from compatible memory cards and mobile phones

As a Copier

- Faithfully reproduce copies as they are seen with the naked eye with Dual Colour Gamut Processing Technology
- Standalone copying without a computer
- Copy approx 8.2cpm black and 3.8cpm colour⁴

As a Scanner

- Scan high-quality photos and documents at up to 2400 x 4800 dpi

Easy to use Software – Just 3 easy steps

- Easy-Photo Print EX produces optimised prints of both portraits and sceneries with Auto Photo Fix II technology
- Easy-Web Print EX automatically scales and adjusts web pages to avoid cropped web pages when printing
- MP Navigator EX allows you to scan, save and print photos and documents. You can also edit images, or attach images to email using this application software

Semi-Gloss Photo Paper (SG201)

Archival-quality, super high-gloss photo paper for professional results

Photo Paper Plus Glossy II (PP201)

Premium high gloss paper for brilliant photo prints

* Ink yield value in accordance with ISO/IEC 24711. Plain paper values obtained by continuous printing. 6x4 photo paper values obtained by continuous printing. The figures above are an average value, measured when printing continuously using the ink immediately after it is unsealed, until the ink is out. Ink yield may vary depending on photos/documents printed, applications software used, print mode and type of paper used. This should be used as a guide only and does not take into account ink that might be used for head cleaning or head refreshing to maintain printer performance. Please visit our website for further details.

Disclaimers

- Ink droplets can be placed with a pitch of 1/9600 inch at minimum.
- Up to 300 Years' Life in a Photo Album when printed with ChromaLife100+ ink on selected Canon photo papers. Kept in a photo album, shut out light and air (gas), temperature 23 degrees and 50% humidity. Predicted value from the accelerated test. Result may vary based on individual environmental factors. For more information, please visit canon.com.au/ChromaLife100+
- Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734, excluding time to print the first set. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
- Copy speeds are the average of FCOT and continuous copy speed, ISO/IEC 24735 Annex D. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warming up time.
- A computer that complies with Hi-speed USB standard is required
