

CANYON

2.4G Wireless Laser Mouse CNR-MSLW02

To enjoy more freedom when working on your notebook or on your PC, this wireless mouse is a great solution to avoid a clutter of wires on your desk. The CNR-MSLW02 has an advanced laser sensor and a radio frequency of 2.4GHz for a stable connectivity between the dongle and the mouse. It offers you responsiveness and speed, with its switchable resolution of up to 1600 dpi. It also features a report rate of 125 GHz, which ensures a faster feedback between your mouse and your computer. The CNR-MSLW02 has an ergonomic and compact design, as well as a rubber grip for a comfortable navigation, a high precision motion control and smooth tracking. It also has a built-in storage compartment for its nano USB receiver for your convenience. It is compatible with the latest OS, including Windows Vista and 7.
