

Smart Watch

Maverick SW-83

The Canyon Maverick SW-83 is a smartwatch designed for fitness enthusiasts who want to track their outdoor activities and stay connected with the world. Perfect for runners, cyclists, and hikers as it comes with a high-accuracy GPS module and compatibility with the Strava APP.

Its high resolution 1.32-inch IPS touchscreen is strikingly smooth. The watch is also true IP68 waterproof, which means it can withstand water submersion up to 1.5 meters deep for 30 minutes. Keep wearing this watch while swimming, showering, or kayaking – Maverick won't let you down.

This watch is designed to help you stay on top of your health and fitness goals. It tracks your steps, calories burned, and sleep patterns. Plus, it provides continuous heart rate monitoring, allowing you to keep track of workouts and monitor stress levels. The blood oxygen sensor here is real and provides precise information about your blood oxygen saturation.

There are a whopping 128 sports modes, including 5 GPS-tracked modes. This feature allows you to track your workouts accurately, whether running, cycling, hiking, or engaging in any other physical activity.

The battery life is impressive, with up to 7 days of working time and up to 30 days of standby time. Basically, you can use your watch for an entire week without charging. When the battery runs low, use the magnetic charging cable included in the package.

Canyon Maverick is a versatile and feature-packed smartwatch, a must-have for anyone who loves to lead an active lifestyle.

TRUE HIGH-ACCURACY GPS

This watch has its own high-accuracy positioning module, allowing you to precisely track the location.

HIGH RESOLUTION IPS SCREEN

Experience perfect display picture – Maverick's 1.32-inch IPS touchscreen is something you need to see. With its high resolution of 360×360 pixels, every detail is crisp and pleasant to your eye.

STAY FIT!

Maverick has 128 sports modes, including 5 GPS sports modes, and offers full compatibility with the Strava app.

You can track your workouts, analyze your performance, and compete with other users.

The GPS module on board ensures that your data is accurate and reliable.

A swimmer in a pool, wearing a black swim cap and blue goggles, is captured in a dynamic pose, splashing water. The swimmer is wearing black swim trunks with blue accents. The background is a deep blue pool with a lane line visible at the bottom. On the left side, there are several decorative geometric shapes: a small white square, a teal parallelogram, a white parallelogram, a teal parallelogram, and another small white square.

WATERPROOF

The watch is IP68 waterproof, which means you can wear it while swimming or showering without any worries. Wear it to the beach or canoeing with your friends — it will endure being submerged 1.5 meters deep for up to 30 minutes.

REAL OXYGEN SATURATION SENSOR

There's a high-precision blood oxygen sensor that actually measures the oxygen saturation in your blood and can be a useful indicator of your overall health.

Q₂

KEEP YOUR WELLNESS ON TRACK

Maverick has an impressive array of features to help you stay on top of your health and fitness goals. It tracks your steps and calories burned throughout the day, monitors your sleep patterns, and provides real time heart rate monitoring. You'll be notified if your stress levels are higher than normal.

IMPROVED USER EXPERIENCE

Stay connected with apps and push notifications, control music playback and camera shutter from your wrist. Raise your hand, and the screen turns on automatically. With the find phone & watch feature, you'll always know where your device is. Choose from 12 pre-installed watch faces or create your own with the DIY watch face option. Plus, access over 150 additional watch faces via the Canyon Life App.

LONG LIFE BATTERY

Maverick has an impressive battery life thanks to its high-voltage 400 mAh battery, with up to 7 days of working time and up to 30 days of standby time. This means you can wear it all day and night without having to worry about recharging it.
