

Wireless mouse MW-12

Meet the MW-12 Wireless Mouse – designed for productivity, comfort, and style, this mouse is an upgrade to the way you work and play. Whether you're handling spreadsheets or enjoying your favorite game, the MW-12 delivers great performance. With an optical sensor boasting 2400 DPI resolution, it offers pinpoint accuracy and smooth tracking across any surface. With adjustable DPI levels (800/1200/1600/2400), you're in total control.

Enjoy the flexibility of dual connection modes – switch between 2.4 GHz wireless and BT with ease. No matter what you're using: a desktop, laptop, or tablet, the MW-12 provides a stable connection within a range of 8-10 meters. No more tangled wires or dropped connections.

At just 65 grams, this mouse is feather-light but built to last. With silent click buttons tested for up to 3 million clicks, you can enjoy a whisper-quiet experience that won't disturb your focus. The ergonomic design fits comfortably in your hand, while the button operation force of 70-75g makes every click feel satisfying and smooth.

Designed with performance in mind, the MW-12 features a 125Hz polling rate, 10G acceleration, and a moving speed of 30 iPS, ideal for both productivity enthusiasts and casual gamers alike. Powered by a single AA battery, it's a hassle-free setup. Compact and stylish at 103.6 x 56.7 x 37 mm, the MW-12 is perfect for on-the-go professionals or home offices. Get yours today and upgrade your clicking game.
