

Wireless mouse MW-26

No more tangled wires or lag – all you get is precise control in the palm of your hand. The MW-26 Wireless Mouse is for those who seek seamless performance without compromise. This mouse adapts to your every move when you’re tackling a full day of work, scrolling through feeds, or diving into a late-night gaming session.

With its dual connectivity options – 2.4GHz wireless and BT – you can switch between devices easily. Use it for your laptop, tablet, or even your smart TV, all while enjoying an ultra-stable connection with zero interruptions. Comfort is key, and the MW-26’s lightweight, ergonomic design ensures a natural grip, so your hands stay relaxed no matter how long you use it. The 6 intuitive buttons put everything you need at your fingertips, with quick access to controls that make navigation a breeze.

Speed matters, and the adjustable DPI settings (800-2400) enable fine-tuning your experience for pixel-perfect accuracy for design work or lightning-fast responsiveness for gaming. Paired with a 125Hz polling rate and 10G acceleration, every movement is smooth and precise.

And battery life is one less thing to worry about. The MW-26 packs a powerful 400mAh rechargeable battery. It’s time to cut the cord, upgrade your workflow, and move with precision.

A 3D rendering of a broken metal chain. The chain is dark grey and highly reflective. It is broken in the middle, with several small pieces of the chain floating in the air between the two main sections. To the left of the broken chain, there are several red geometric shapes: a small parallelogram at the top, a larger parallelogram below it, and a trapezoid below that. The text 'WIRELESS MOUSE' is written in bold, red, sans-serif capital letters to the right of the red shapes.

WIRELESS MOUSE

It's high time to embrace cordless navigation. The MW-26 delivers smooth and uninterrupted performance for any task you've set out to complete. Enjoy the convenience of true wireless freedom with a stable connection that never lets you down.

SCREEN WITH CHARGE LEVELS

No more guessing how much battery life is left! The built-in charge level screen keeps you informed, so you'll always know when it's time to recharge before your mouse runs out of energy.

A series of red geometric shapes, including a parallelogram, a rectangle, and a trapezoid, arranged in a vertical stack on the left side of the page.

SILENT CLICK AND 6 KEYS

The MW-26's silent buttons let you work in peace: in the office, on a late-night study session, or while sneaking in some gaming as everyone sleeps. With six easy-access buttons, you get extra control and efficiency at your fingertips.

DUAL MODE CONNECTION 2.4 GHZ + BT

Why limit yourself? Switch seamlessly between 2.4GHz wireless and BT to connect to multiple devices (laptops, tablets, or even smart TVs) without re-pairing every time. Work, play, and create on your terms.

RECHARGEABLE BATTERY

Forget disposable batteries!
The built-in rechargeable battery
means fewer interruptions and a more
eco-friendly approach to power. Just plug in,
charge, and keep going.

A series of dark blue and white geometric shapes, including parallelograms and rectangles, arranged in a staggered pattern on the left side of the image.

LONG BATTERY LIFE – UP TO 600 HOURS OF WORK

Power that lasts. The MW-26 delivers an impressive 600 hours of use on a single charge, so you can stay productive for weeks without worrying about plugging in.

OPTICAL SENSOR WITH 800-1200-1600-2400 DPI RESOLUTION

Whether you need precision or speed, customize your experience with the adjustable DPI settings. Slow things down for detailed design work or add some speed for fast, responsive gaming.

**STYLISH COLOR OPTIONS:
VIOLET, YELLOW, PINK,
SAGE GREEN**

The MW-26 is available in a range of soft, modern colors that add personality to your workspace. Whether you prefer a calming sage green, a bold lavender, or a playful pink or yellow, there's a style that can fit you perfectly.
