

Portable wireless speaker

OnMove 9

Meet the OnMove 9 Portable Wireless Speaker, a perfect partner in sound and adventure. Jam out at a backyard BBQ, conquer the great outdoors, or just vibe in the shower (yes, it's waterproof), and let this little powerhouse bring the beats you'll find impressive. With 7 hours of playtime, the OnMove 9 can keep your playlist alive longer than your smartphone battery. Its Bluetooth 5.3 connection is so solid, you might forget wires were ever a thing; just keep it within 15 meters for best results.

Rain and splashes are no problem. The IPX6 waterproof rating makes this speaker tough enough to handle life's unpredictabilities, such as your friend who insists on bringing speakers to pool parties, if that's a thing. And thanks to the TWS function, you can pair the device with a second speaker for stereo sound that's outstandingly rich.

Switch between your favorite EQ modes, pop in an SD card for instant nostalgia trips, and use the built-in mic for hands-free calls because multitasking should be easy. With 10W of power packed into a sleek design, we can admit that great things do come in small, mighty packages. Charging the speaker is a quick affair, too – four hours for a full tank. So get yours and make every sound count.

**UP TO 7 HOURS
OF PLAYTIME**

The OnMove 9 delivers a solid 7 hours of uninterrupted playtime on a single charge. No matter which event is on your agenda, the music will keep flowing – without a worry about a low battery.

SPLASH & SPILL RESISTANT

With the IPX6 waterproof rating, this speaker laughs in the face of accidental spills, unexpected drizzles, and poolside splashes. Take it to the beach, the shower, or your next outdoor adventure without hesitation.

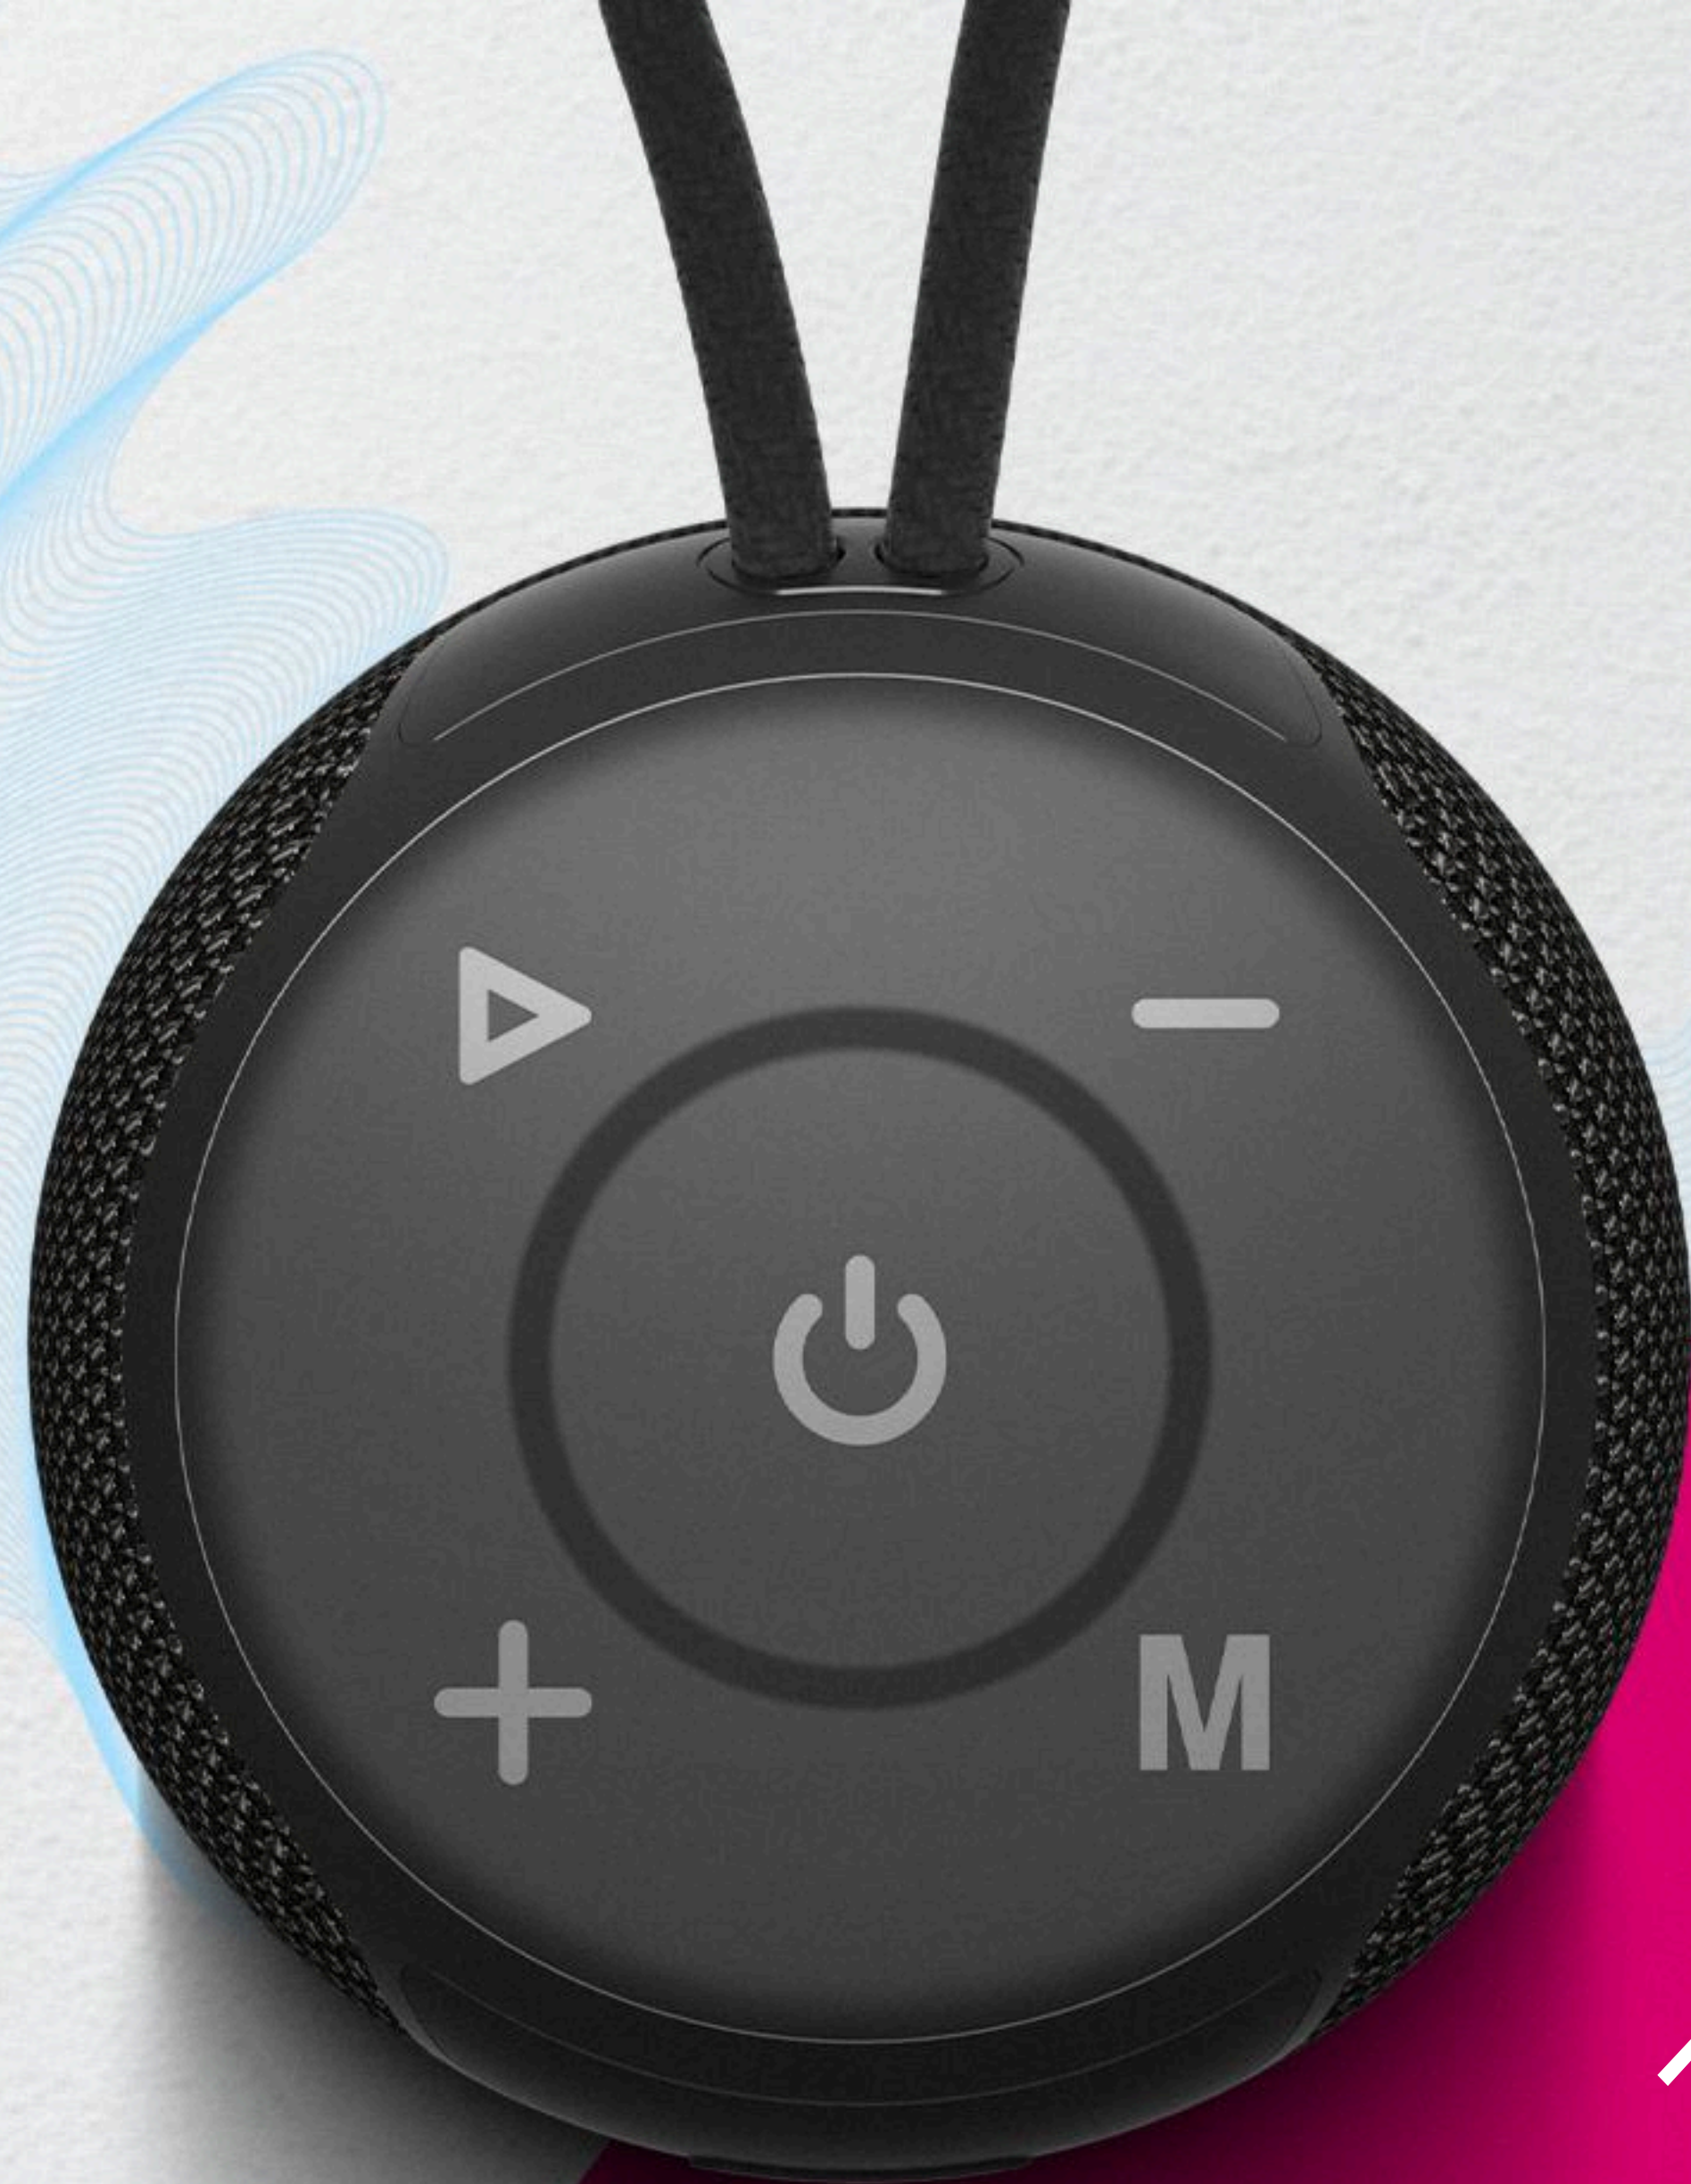

**RICH & IMMERSIVE
SOUND**

For a speaker this compact, the sound is anything but small. With 10W of power, the OnMove 9 delivers rich bass, clear mids, and crisp highs that fill any space – where every note hits just right.

BT VERSION 5.3

With BT 5.3, you get a faster, more stable connection, extended range (up to 15 meters), and improved energy efficiency. Say goodbye to annoying dropouts and hello to smoother streaming with even more time to groove.

PARTY MODE

Turn up the fun with True Wireless Stereo (TWS) pairing. Sync two OnMove 9 speakers for a stereo effect or crank up the volume to fill larger spaces. It's like bringing the concert to your living room or campsite, whichever you prefer.

MEMORY CARD

Traveling light? No problem. Pop an SD card into the built-in slot and let your playlists take center stage. No need for a phone or an internet connection: enjoy your music on your terms.

HANDS-FREE CALLING

If you got a call while the music's pumping, there's no need to disconnect. With a built-in microphone, the OnMove 9 doubles as a hands-free speakerphone. Chat without fumbling for your phone or cutting the party short.

COMPACT SIZE

Small in size and big on performance. The OnMove 9's sleek and portable design makes it easy to slip into a bag, backpack, or even a jacket pocket. Take it anywhere without sacrificing space.
