

CAR VIDEO RECORDER DVR25GPS

The Canyon DVR-25-GPS is a champion in the world of dash cams. Equipped with the remarkable Sony Starvis 335 sensor, this camera captures 2.5K footage at 60 frames per second. With its wide 140° field of view, you can trust it to provide comprehensive coverage of your surroundings, even in low light.

Installation is a breeze with the included magnetic mount, ensuring a secure setup. Thanks to its reliable supercapacitor, the dash cam operates safely and consistently. But that's not all! You can conveniently manage the device directly from your smartphone using the WiFi connection and our multi-language app. With the 3-inch touch screen, intuitive control is right at your fingertips.

Not only does the Canyon DVR-25GPS offer exceptional functionality, but it also boasts a sleek Italian design with a glossy frontal part that seamlessly blends into your car's interior. It's a dash cam that combines style and substance.

And here's the icing on the cake: the built-in GPS module allows you to track your vehicle's speed and location. Say goodbye to the fines, as the speed cam function keeps you informed about speed control cameras ahead – and the database is updated every week. It's like having a helpful co-pilot always looking out for you.

Take advantage of this opportunity to experience enhanced safety, convenience, and peace of mind on every journey. Get your hands on the Canyon DVR-25-GPS today and embark on a new level of driving confidence.

GPS AND SPEEDCAM

The built-in GPS module accurately records your speed and location, providing an additional layer of protection and enabling easy route tracking for enhanced peace of mind on the road. The speed cam function alerts you to fixed speed cameras along your route, helping you stay aware and avoid potential fines. And the best thing? The database is updated weekly – you can provide your dash cam with the latest data via our app.

EXCEPTIONAL ITALIAN DESIGN

Designed in Italy and crafted with an eye for detail, this elegant device seamlessly complements the interior of any vehicle.

MOBILE APPLICATION CANYON EYE

Upgrade your vehicle's safety with our cutting-edge car video recorder, complete with WiFi connectivity and a user-friendly mobile app. Gain immediate access to vital recorded videos during emergencies, receive weekly push notifications to update the traffic camera database, and enjoy hassle-free firmware upgrades to keep your device optimized and future-proofed.

TOUCH SCREEN DISPLAY

With a vibrant 3-inch capacitive touch screen, operating the dash cam is a breeze. Navigate through settings, preview recordings, and access additional features with a simple touch.

RELIABLE SUPERCAPACITOR

Our supercapacitor technology ensures a stable power supply, no matter how extreme the temperature gets. You can rely on the Canyon DVR-25GPS to stay powered up and recording, while other dash cams may throw in the towel.

MAGNETIC MOUNT

Mounting your dash cam is as easy as pie: the magnetic holder with a power supply offers a secure attachment and easy removal.
