

# Universal Travel Adapter OnTour 70

Designed for travelers and professionals who need reliable charging on the go, the OnTour 70 combines versatility with technology in a compact form. Featuring five USB ports (three USB(C) and two USB(A), and a total DC output of up to 70W, this adapter can simultaneously power multiple devices.

Its dual AC sockets support universal plugs plus a dedicated US/JP side socket, allowing compatibility with over 200 countries worldwide. The latest GaN III technology enables efficient charging while keeping heat generation to a minimum, making it safer than traditional chargers.

Operation is simple and intuitive with a slide-and-push mechanism for switching between EU, UK, US, and AUS plugs, all without needing to press buttons. Safety is prioritized through a certified 10A fuse, safety shutter, and comprehensive protection against over-voltage, overheating, overcurrent, and short circuits. An LED indicator provides clear charging status at a glance.

Built with full copper components and fire-resistant materials, the OnTour 70 offers dependable durability and peace of mind during any journey.

## ROBUST 7-IN-1 CHARGING CAPABILITY

Charge up to seven devices at once with a total output capacity of 70 watts. Power laptops, tablets, or smartphones efficiently and simultaneously.

**ENHANCED PORT  
CONFIGURATION FOR  
MAXIMUM FLEXIBILITY**

Featuring three USB Type C ports alongside two USB(A) ports, this adapter offers more connection options than most models, so you can power a wide range of devices without carrying extra chargers.

## COMPACT DESIGN THAT GOES ANYWHERE

Despite its powerful charging capabilities, the adapter is compact and lightweight — it weighs less than 200 grams. It's ideal for travel, business trips, or daily carry.

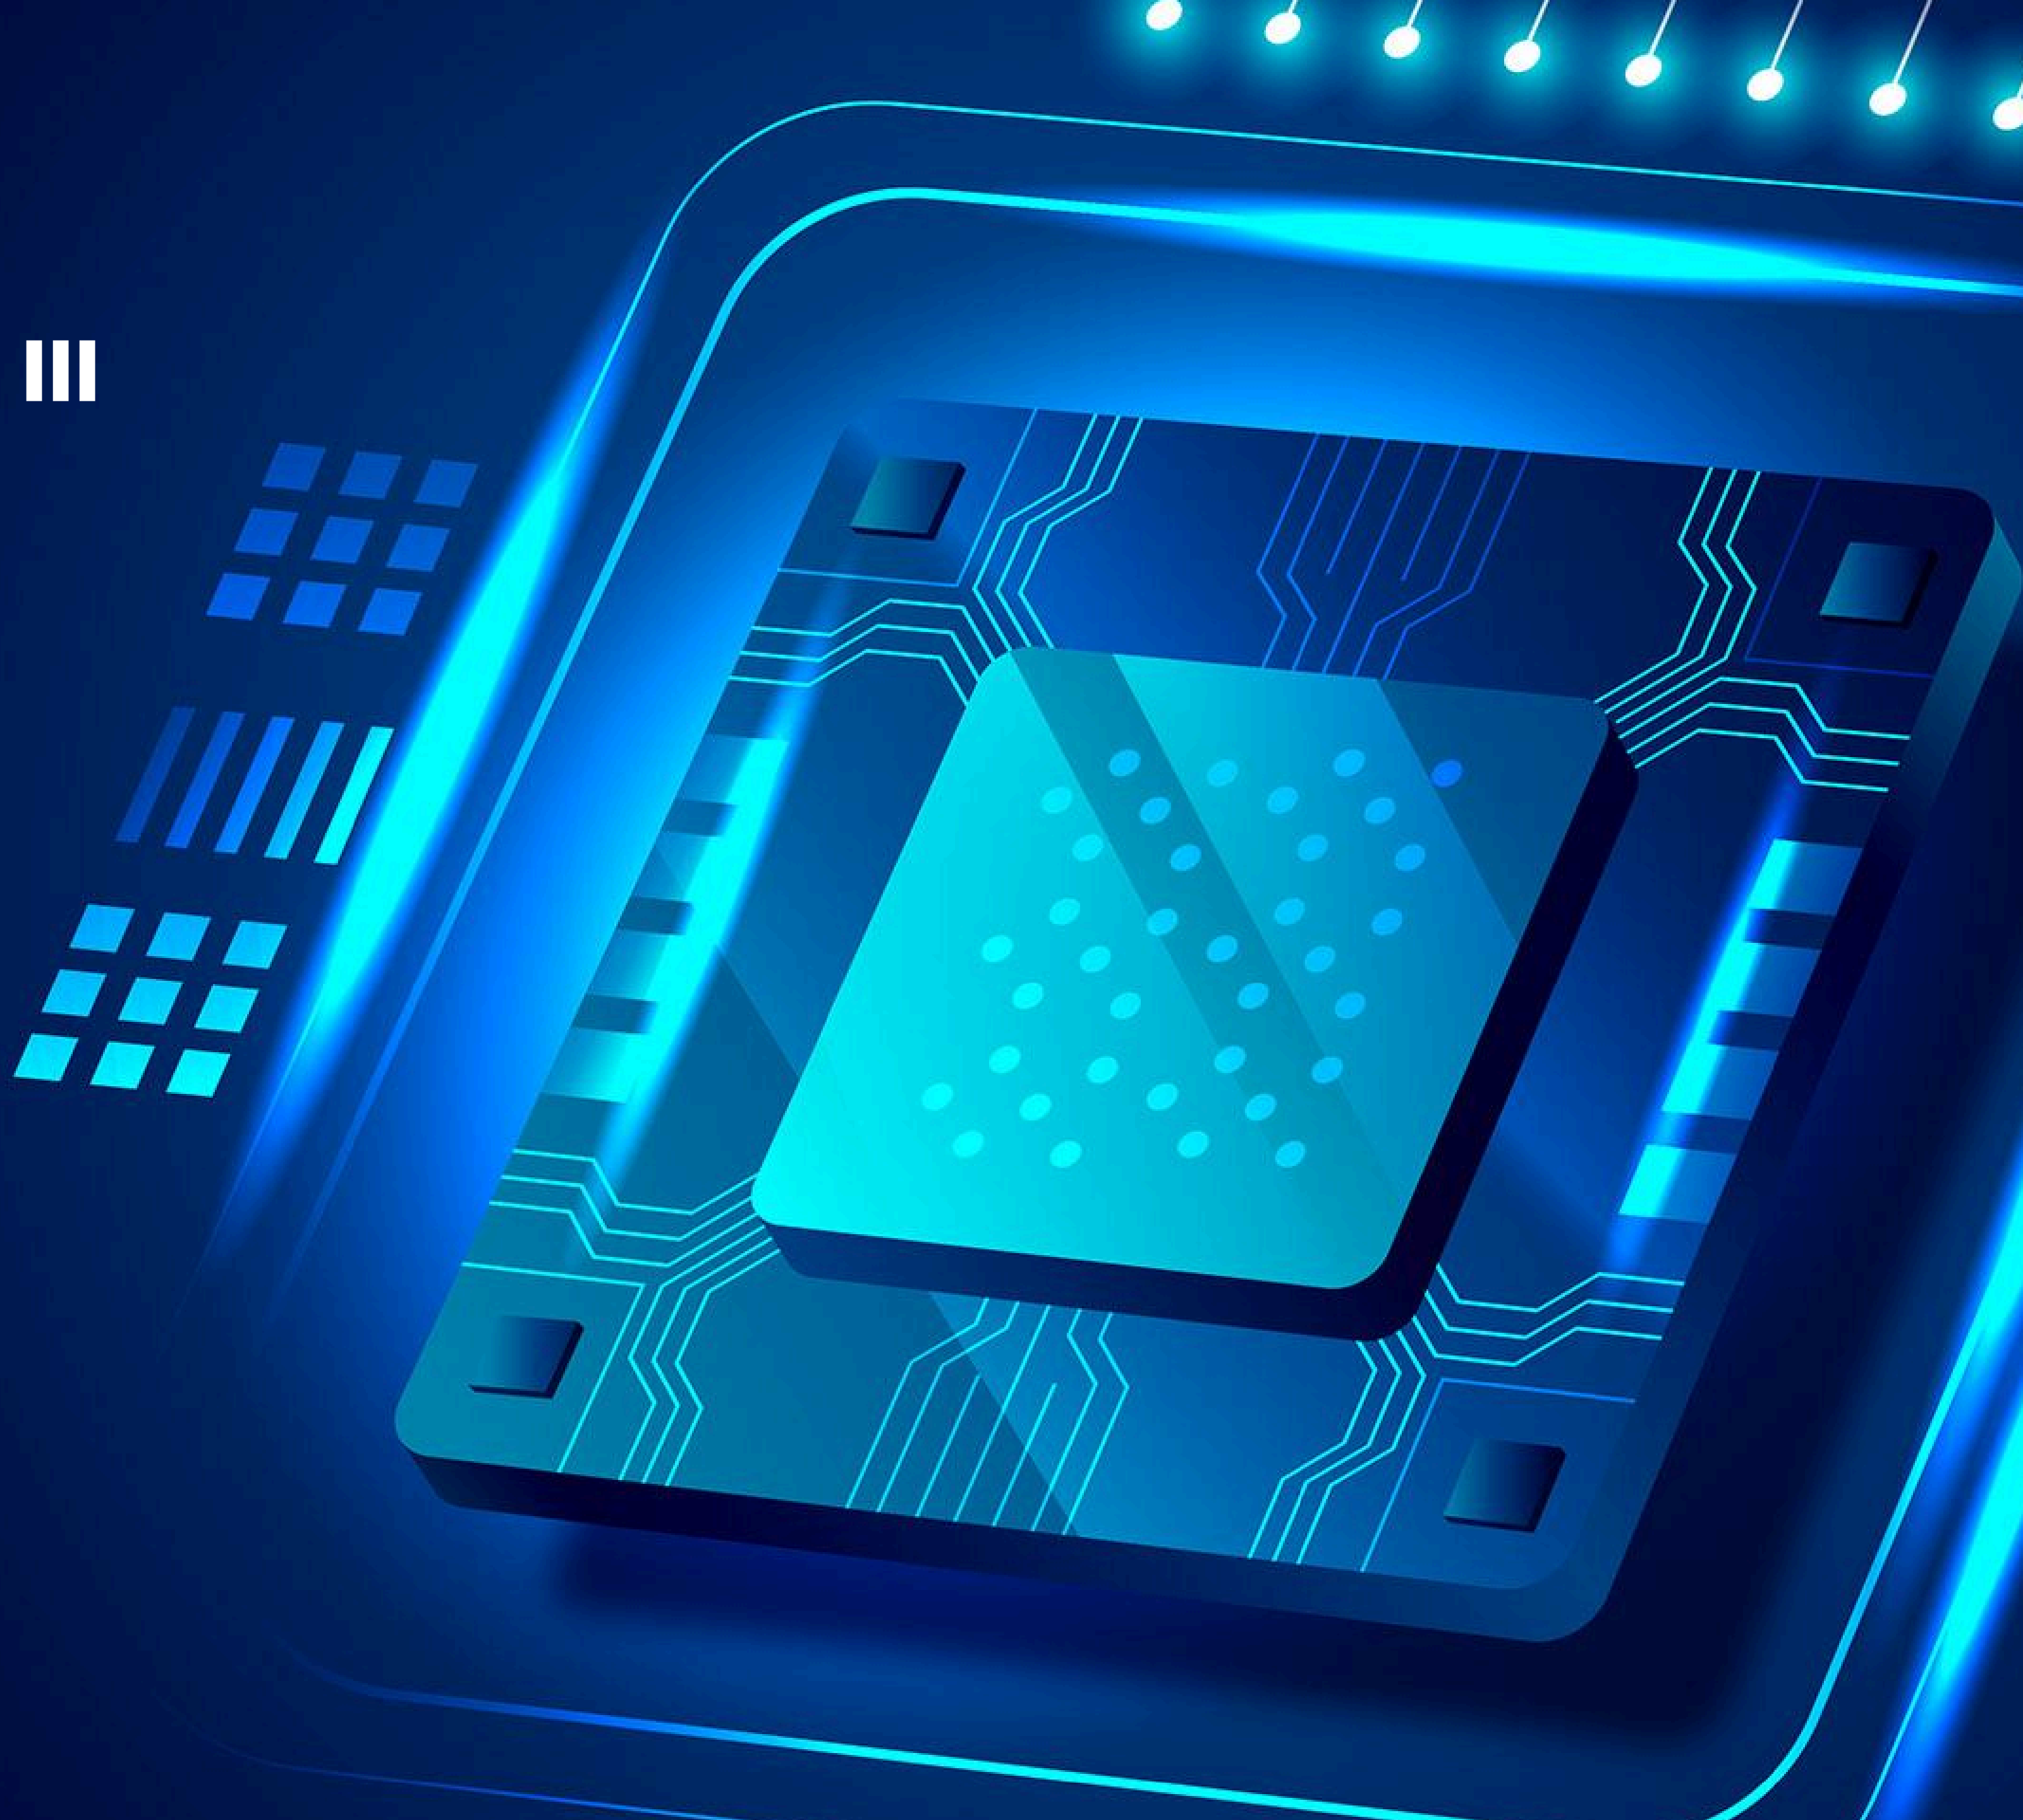

# INTEGRATED SAFETY SHUTTER FOR USER PROTECTION

Equipped with a safety shutter mechanism to block accidental access to live electrical components, this adapter combines user safety and reliable functionality in every environment.

# ADVANCED GAN III TECHNOLOGY
