

## Leave a powerful impression. Be convincing, all the time.

The new XJ-560 projector from CASIO will impress you right away with its performance and mobility. Bundled with the multi-functional camera system YC-400, you can bring even more variety to your presentation!

- 3,000 ANSI lumens
- 2x optical wide-angle zoom lens
- DLP™ technology
- XGA resolution (1,024 x 768 pixels)
- Weight: only 2.7 kg
- Size (W x H x D): 278 x 64 x 214 mm
- Automatic horizontal and vertical keystone correction
- Autofocus
- Whisper mode
- Direct power off function
- 3 years warranty
- Supplied with: case, cable and IR remote control with laser pointer

Provide an environment for creativity.

### Top of the class for small size and big performance!

CASIO is clear proof of how much power you can pack into a small space: the new XJ-560 is extremely compact, but thanks to the integrated DLP™ technology it boasts enormous brightness of 3,000 ANSI lumens and a truly remarkable contrast ratio of 2000:1. Guaranteeing brilliant presentations, even in large rooms and bright surroundings, the XJ-560 shows its strengths in small meetings, as well: thanks to the built-in 2x zoom lens with automatic distortion correction, you can adjust the projection surface as you want, even in cramped conditions. The autofocus leaves you free to concentrate on what you want to say. And the immediate power off function means that after a successful presentation, you can put everything away again just as quickly.

The unique multi-functional camera system YC-400 is available with the XJ-560 in a set. Combining the camera system with the projector, you can incorporate up-to-date photos, newspaper cuttings, notes and much more into an ongoing presentation, or you can document your presentation as you go.

# XJ-560: ultra-portable XGA projector

## Technical Data XJ-560

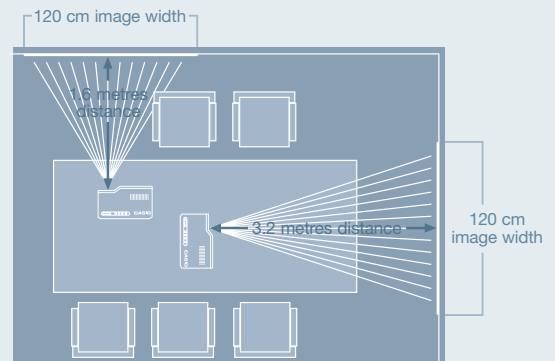

<b>Display</b>	Technology	1 x 0.7" 12° DLP™
	Resolution	XGA 1,024 x 768 pixels
<b>Image</b>	Brightness	3,000 ANSI lumens
	Contrast ratio	2000 : 1 (tele mode)
	Colour depth	16.7 million
<b>Lens</b>	Technology	Optical 2x power zoom
	Focal length/aperture	f: 20 - 40 mm/F: 2.0 - 2.8
	Projection ratio	1.4 - 2.8 : 1 (distance : image width)
	Offset	100 %
	min./max. distance*	0.80 m/5.30 m
	Focusing	Automatic
<b>Lamp</b>	Type	270 W high-pressure mercury lamp
	Lamp lifetime	c. 2,000 h
<b>Digital keystone correction</b>	Vertical	+/- 30° automatic
	Horizontal	+/- 30° automatic
<b>Connections</b>	Computer	1 x 15pin HD
	Video	1 x RCA
	S-video	1 x mini-DIN
	Component video	Opt. adaptor via 15pin HD
	Audio	3.5 mm jack
	Mouse control	USB
<b>Computer compatibility</b>	Resolution	800 x 600 (expanded) to 1,600 x 1,200 (compressed)
	hor./vert. frequency	15 - 92 kHz/50 - 85 Hz
<b>Video compatibility</b>	Signal	Analogue RGB
	Standards	PAL-N, PAL-M, PAL60, SECAM, NTSC
	Signals	Composite video, YC, YPbPr
<b>Audio system</b>	Loudspeaker	Stereo mini jack x 1/1 x 1 W
<b>Remote control</b>	Technology	Wireless IR with mouse function and laser pointer
<b>General</b>	Measurements (W x H x D)	278 x 64 x 214 mm
	Weight	2.7 kg
	Casing	Magnesium alloy
	Colour	Silver
	Mains voltage	100 - 240 V AC 50/60 Hz
	Power consumption	approx. 300 W
	Operating temperature	5° C - 35° C
	Operating noise	33 dB (A) whisper mode
	Warranty	3 years
	Lamp warranty	1,000 h or 90 days
<b>Security</b>	Kensington slot, key lock, power-on password	
<b>Other functions</b>	4x Digital zoom, direct power off function, rear projection, user logo, picture-in-picture, mute, freeze, whisper mode, ceiling mounting possible	
<b>Included in package</b>	RGB cable, USB cable, video cable, power cable, IR remote control, batteries, case, user manual on CD, quick start card, warranty card, registration card	

\* for autofocus and auto keystone.

# 2x zoom

### Make a big impression even in a small room: The optical 2x zoom.

You don't know yet what kind of room you will be giving the presentation in? Thanks to the optical 2x zoom, the size of the image can be adjusted to fit nearly every projection distance and surface. This way, you needn't worry about the size of the room – and you've got optimum image quality at all times!

### Pretty straight(forward): The fully automatic trapezoidal correction.

With the XJ-560, image distortion is automatically a thing of the past: if the conditions in your presentation room don't allow straight projection, you can set up the projector at an angle of up to 30° to the projection surface. Projecting at an angle normally causes distortion, but the XJ-560 has an integrated sensor system that compensates for any distortion – immediately and automatically.

### Flexible presentations with the multi-functional camera system YC-400.

An absolute innovation, and nothing short of a revolution in its field! Available as an optional extra, the multi-functional camera system YC-400 really expands your presentation possibilities: direct document capture and projection, on-the-spot photos of flipcharts or whiteboards, and much more. Of course the camera can be removed from the system, so you have a quality digital camera to take with you wherever you go. And when you're ready to transfer the pictures to your computer, just plug the camera into the USB port, start the software program supplied and off you go!
