**LESS LAG.  
MORE WINS.**

**THE NEW DELL 24 GAMING MONITOR**

# Dell 24 Gaming Monitor | G2422HS

## Immersive gaming

Enjoy smooth gameplay and rich, captivating colors with Fast IPS technology at an incredible 1ms GTG response time that eliminates motion blur, all the while portraying true to life colors on a 23.8" FHD screen with 99% RGB from a wide viewing angle (178°).

## Rapid responsiveness

Amazingly fast 165Hz variable refresh rate allows for moving visuals to be seen with incredible clarity so you can react quicker to in-game situations.

## Fluid, tear-free gaming

Experience sharp and undistorted moving images with NVIDIA® G-Sync® Compatible technology and AMD FreeSync™ Premium technology.

## Console Compatible

Pairs with the latest consoles and supports a variable refresh rate output up to 120hz with FHD resolution.

## A brand to rely on

We take pride in our unyielding commitment to quality and the utmost satisfaction of our customers. Dell Premium Panel Exchange allows a free panel replacement during the Limited Hardware Warranty period even if only one bright pixel is found. Minimize downtime with 3-year Advanced Exchange Service.

Thank you

Starting price: USD 349.99

## Product Details

- Amazingly fast 165Hz variable refresh rates that allow for faster reactions to in-game situations.
- An incredible response time at 1ms GTG with the Fast IPS technology panel eliminates motion blur ensuring smooth gameplay while portraying rich, captivating colors the way they were designed with 99% sRGB from a wide viewing angle (178°).
- Experience sharp and undistorted moving images with AMD FreeSync™ Premium technology (NVIDIA® G-Sync® Compatible technology TBC).
- Get an expansive gaming field with a 23.8" FHD display.
- See details hidden in dark shadows of your game with Dark Stabilizer mode so you never miss a hidden opponent.
- Optimized eye comfort with a flicker-free screen and ComfortView Plus, an always on, built in low blue light hardware solution that reduces blue light emissions and eye fatigue during long hours of gaming session without compromising on true to life colors.
- A height adjustable stand and multi monitor setup support with 3-side narrow bezel display provides a seamless, expansive playing field that is ergonomic for long hours of continuous gaming..
- Gaming-inspired design with distinct, bold vents at the back for improved heat dispersal and evolved gamified elements like an OSD with joystick and short-cut buttons that enable in-game advantage with three customizable profiles to fit the variety of games played in addition to preset modes, and game features.
- Compatible with latest consoles with variable refresh rates (VRR) up to 120hz with FHD.
- Superior customer service will send out a replacement panel within one business day (Advance Exchange Service) even with only 1 bright pixel found (Premium Panel Exchange)

# Feature Overview

## Bold Gamified Design

- Angled base allows for closer gameplay and a smaller footprint for more desktop space & additional gaming accessories.
- Gaming-inspired design with distinct, bold vents at the back for improved heat dispersal.
- Easily navigate and manage the OSD menus with the joystick and shortcut buttons on the back of the monitor. Customizable & pre-set game modes allow you to optimize game visuals without having to manually adjust screen settings every time you play your game.
- See the minutest of details bigger and better with 3-side narrow bezels that provide a seamless expansive playing field in a multi-monitor setup.

The always on built-in ComfortView low blue light hardware solution reduces harmful low blue light emissions without compromising on true to life colors and prevents eye strain especially during long games of gaming.

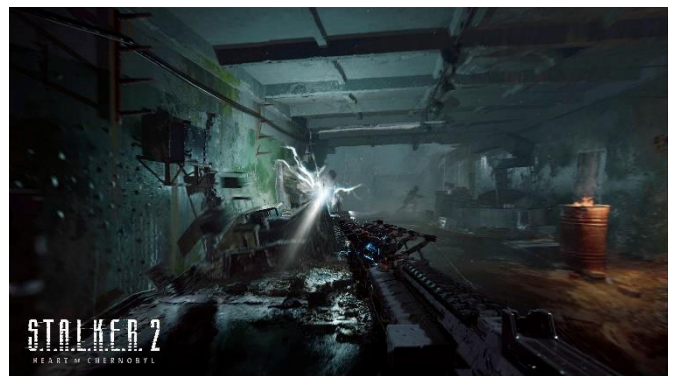

Additionally, controlling the brightness using a direct current enables a flicker-free screen, giving you a more comfortable viewing experience.

Dark Stabilizer improves visibility by enhancing shadows and helps see the details hidden in dark shadows of your game.
