World's number 1 monitor company*

We deliver world-class monitors that have gone through rigorous development processes and stringent tests to ensure dependable performance. Get peace of mind with unmatched warranty and support options. Being environmentally forward in thinking, our monitors adhere to environment standards and are made with sustainable materials.

Designed with Sustainability in mind

Intentional design in every part

At the heart of our design is a commitment to sustainability. That's why our monitor helps reduce waste with a design made from recycled materials with up to 95% post-consumer recycled plastic, up to 10% recycled steel, and 20% recycled glass^[1].

Environmental standards

This monitor is certified ENERGY STAR®, meaning it meets strict energy efficient guidelines ^[2].

Packaging with purpose

This monitor ships in a box made from 100% recycled or renewable materials. We are reducing paper usage in monitors packaging, which is the equivalent to saving 790 trees annually^[3].

¹ Based on internal analysis, December 2025. Up to 95% recycled plastic throughout the device, up to 10% recycled steel in the monitor head and in the stand, and up to 20% recycled glass in the panel.

² Based on internal analysis, April 2026. ENERGY STAR® certifications may vary by configuration. See www.energystar.gov/productfinder/ for certification status.

³ Based on internal analysis, December 2025. Packaging applies to all Dell monitors launched since 2023. Made from FSC mix sources which is a mix of material from FSC certified forests, recycled content and/or FSC controlled wood. January 2025, introduced cushions now made from corrugated materials. Paper reduction applies to all Monitors shipping in 2026. Reductions in paper usage in monitor packaging is attributed to the quick start guide size reduction and calibration sheet digitization.
