**Note: Mac OS does not support two different screens. Windows operating system supports both SST and MST mode. If you are not sure how to make the settings, please contact us. USB-C port must support DP alternate mode (Alt) or DisplayPort In this case, the DP logo next to the port is usually displayed, and not all USB-C ports/systems support alternate mode.

Description

The equip® MST hub lets you connect two HDMI monitors to your USB-C computer. MST works on any Windows® device that supports DP Alt Mode over USB-C. The USB-C HDMI hub is powered by the USB-C port, so you don't require an additional power adapter
