

# 151177 RJ45 Cable Boot, Rubber, Grey, 100-Pack

## Product Images

---

## Short Description

---

- **Compatible Connector:** RJ45 plug
- **Boot Function:** Antikink strain relief with integrated latch protection
- **Material:** Rubber for reliable flexibility and secure connector fit
- **Color:** Grey
- **Pack Quantity:** 100 pcs per pack

## Description

---

The equip® 151177 Cable Boot provides a cost-effective strain relief and finishing

solution for RJ45 patch cable terminations, protecting the cable-to-connector junction from repeated bending stress that causes premature wire fatigue and connection failure in high-density patching environments.

The integrated latch protection guard shields the RJ45 connector latch from accidental breakage during installation, cable management, and daily patch operations — eliminating the frustration and downtime caused by broken latch tabs in busy server rooms, patch panels, and structured cabling deployments. Each pack contains 100 boots, making the 151177 the practical bulk-buy choice for large-scale cable assembly and installation projects.

Manufactured from durable rubber, the 151177 delivers reliable flexibility and a secure, snug fit on RJ45 connectors, maintaining consistent strain relief performance throughout the cable lifespan. The professional grey finish supports color-coded cable management systems in data centers, network cabinets, and enterprise cabling installations.

## Additional Information

Harmonized System (HS) code.	853890
Customs product code (TARIC).	8538909960
Color.	Grey
EAN.	4015867226285
Model Number.	151177
Dimensions (W x D x H).	14.3 x 14 x 25.8 mm
Product weight (kg).	0.0018
Approval and Compliance.	RoHS
Package Contents.	151177
