

# Data Sheet FUJITSU Desktop ESPRIMO P956/E94+

### Combines highest efficiency with expandability

The FUJITSU ESPRIMO P956/E94+ Desktop provides highest manageability, performance and expandability. The Zero Noise PC function supports a pleasant working environment, and the 94% efficient power supply reduces your energy bills. With its innovative Low Power Active Mode feature you are ready for instant communication in the modern office. The use of the same software load within the product series ensures perfect infrastructure compatibility. On retirement, the Fujitsu distinctive EraseDisk function securely wipes your data.

### Zero Noise PC

Pleasant working environment due to completely quiet system (solid state disk required)

■ Fan stop in standard operations

### Always Available Office PC - stay connected and save power

Be ready for instant communication and a significantly reduced energy bill

■ Innovative Low Power Active Mode and highly-efficient integrated power-supply

### Best energy efficiency coupled with performance

Low power consumption combined with highest levels of performance

■ 6th generation Intel® Core™ processor family, a switched monitor outlet and a power supply with 94% efficiency

### System management

Simple system administration for complex IT infrastructures

■ Intel® vPro™ technology (depending on processor) and DeskView manageability suite

### Green technology

Another example of the Fujitsu commitment to environmental protection and sustainability

 Halogen-free printed circuit board of mainboard, sophisticated product concept for the entire lifecycle
