

# Data Sheet FUJITSU Server PRIMERGY TX1310 M3 Tower Server

An ideal server for your essential workloads

FUJITSU Server PRIMERGY will give you the servers you need to power any workload and changing business requirements. As business processes expand so does the need for applications. Each has its own resource footprint, so you need a way to optimize your computing to better serve your users. PRIMERGY systems will help you match your computing capabilities to your business priorities with our complete portfolio of expandable PRIMERGY tower servers for remote and branch offices, versatile rack-mount servers as well as hyper-converged multi-node servers. They convince by business proven quality with a wide range of innovations, highest efficiency cutting operational cost and complexity, provide more agility in daily operations, and integrate seamlessly to let help you concentrate on core business functions.

Perfect for small and medium businesses as well as branch offices, FUJITSU Server PRIMERGY TX tower systems are robust and cost-efficient servers by providing rock solid reliability. Additionally they are characterized by simple IT operations, low power consumption and quiet operation so that they can be handled by non-technically trained staff and can be used in standard office environments. By the way: Almost all PRIMERGY TX servers can be rack-mounted to offer best flexibility.

### PRIMERGY TX1310 M3

The FUJITSU Server PRIMERGY TX1310 M3 is ideal for Small and Medium-sized Enterprises and is designed to provide affordable performance for essential workloads. This mono-socket server supports the latest Intel® Xeon ® E3-1200 v6 product family, Core™ i3, Pentium® and Celeron® processors, plus up to 64GB main memory to deliver right sized performance for standard infrastructure workloads such as file, print, web or office applications. The server features a completely new compact chassis, up to four 3.5-

inch drives (40TB max.), plus data backup and networking capability to ensure that it can handle a range of essential workload and deployment requirements. It also offers data safety during processing via ECC memory. The PRIMERGY TX1310M3 allows organizations to upgrade from standard personal computers to an affordable server class system which can operate round the clock, and help them securely consolidate their data. Moreover, the PRIMERGY TX1310 M3 is incredibly silent making it a great choice for offices and showrooms. The servers' screw-less chassis and new hard disk quick-release capability also make it ideal from the ease of use and serviceability perspective.

### Features & Benefits

### Main Features

### Right sized performance

- Affordable processor choices tailored to your business needs
- Range of Intel® Xeon ® E3-1200 v6 product family, Core™ i3, Pentium® and Celeron® processors and up to 64 GB DDR4 ECC memory (4 DIMMs)

### Server class features across the entire feature set

- Enhance your storage with up to 4x 3.5-inch non-hot plug SATA storage drives (up to 40TB) and support for RDX backup devices
- Onboard Gigabit LAN as standard
- 4x PCle Gen3 slots for scalability
- Error-correcting code (ECC) memory
- Enhanced cooling for 24x7 operation

### Enhanced ease of use and serviceability

- Fujitsu's innovative Cool-safe ® Advanced Thermal Design technology and optimized air flow for low noise emissions
- Innovative new compact chassis design for enhanced serviceability

### **Benefits**

- Ideal as a cost effective choice for many essential SME server tasks, such as file, print, web, office applications or even Industry-specific applications
- Provides ample performance for many small and medium sized businesses
- Upgrade from a PC to a server with high quality drives, large storage capacity plus professional data backup
- Transfer data with seamless, cost-effective connectivity. Additional optional networking cards are available for enhanced business specific needs
- Protect your investment with a design having headroom for growth
- Safety for your valuable enterprise data while it is being processed
- Keeps your business running non stop
- Silent Operation and expanded range of operation (5 °C to 40 °C)
- Screw-less chassis with easy, fast and comfortable access to the interior of the server, PCle slots and brand new cold-plug drive designs with cable less access to the hard disks

## Technical details

PRIMERGY TX1310 M3

Dimensions / Weight	
Floor-stand (W x D x H)	180 x 313 x 374 mm
Weight	up to 12 kg
Environment	
Operating ambient temperature	10 - 40 ℃
Operating temperature note	ETSI 300 019-2-3 Class 3.1
Operating environment	FTS 04230 – Guideline for Data Center (installation specification)
Operating environment link	http://docs.ts.fujitsu.com/dl.aspx?id=e4813edf-4a27-461a-8184-983092c12dbe
Noise emission	According to ISO9296
Sound pressure (LpAm)	23 dB(A) (idle)/ 24 dB(A) (operating)
Sound power (LWAd; 1B = 10dB)	4.0B (idle)/ 4.0B (operating)
Noise notes	Noise emissions depends on operation modes, system configuration and ambient temperature.
Electrical values	
Power supply configuration	1 x standard power supply
Active power (max. configuration)	139 W
Apparent power (max. configuration)	140 VA
Heat emission (max. configuration)	500.4 kJ/h (474.3 BTU/h)
Rated current max.	3.5A (100 V) / 1.5 A ( 240 V)
Active power note	Preliminary Information, may be updated later: To estimate the power consumption of different configurations use the Power Calculator of the System Architect: http://configurator.ts.fujitsu.com/public/
Power supply	250W standard, 85% (Bronze efficiency), 100-240V, 50 / 60Hz
Compliance	
Global	CB RoHS (Substance limitations in accordance with global RoHS regulations) WEEE (Waste electrical and electronical equipment)
Germany	CS
Europe	CE
USA/Canada	CSA us ULc/us FCC Class A
Japan	VCCI:V3 Class A + JIS 61000-3-2
South Korea	KC
China	CCC (planned)
Australia/New Zealand	C-Tick (AS / NZS CISPR 22 Class A)
Compliance link	https://sp.ts.fujitsu.com/sites/certificates
Compliance notes	There is general compliance with the safety requirements of all European countries and North America. National approvals required in order to satisfy statutory regulations or for other reasons can be applied for on request.  * Warning:  This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

### More information

### Fujitsu products, solutions & services

In addition to FUJITSU Server PRIMERGY TX1310 M3, Fujitsu provides a range of platform solutions. They combine reliable Fujitsu products with the best in services, know-how and worldwide partnerships.

### Fujitsu Portfolio

Built on industry standards, Fujitsu offers a full portfolio of IT hardware and software products, services, solutions and cloud offering, ranging from clients to datacenter solutions and includes the broad stack of Business Solutions, as well as the full stack of Cloud offerings. This allows customers to select from alternative sourcing and delivery models to increase their business agility and to improve their IT operation's reliability.
