

LIFEBOOK P8010

Impressive style for expressive people

Issue January 2009

Pages 4

LIFEBOOK P Series fits in any bag.

Starting at 1.2 kg, this light notebook supports you with everything you need for professional business. It provides all standard interfaces including embedded UMTS/HSDPA/HSUPA and integrated ConfCamera. This widescreen beauty is truly a maximum. The integrated EcoButton extends battery run time even further. Be sure to take center stage due to its small and stylish form factor. In short, emotional appeal aligned with pure functionality.

Smart people on the move appreciate the style and dynamics of a truly different notebook, whether number crunching, word processing or watching a movie on an amazingly clear and sharp 12.1-inch wide format WXGA glare display .

The new LIFEBOOK P Series is not only small, it's secure too. Just swipe your finger to the integrated biometric fingerprint sensor or remember a single master password to keep all of your system log-ins and data protected.

Elegance

- Light full functional multimedia in an extremely small package
- Enjoy the viewing quality of brilliant 12.1-inch wide format WXGA TFT glare display with integrated ConfCamera
- Exclusive protective leather bag

Ergonomics

- Extremely small package fits even on the smallest airplane table
- EcoButton to extend battery life by powering down energy consumption
- Application buttons: Fast and uncomplicated launching of personal applications. Hard- and software solution for improved power management and easy restore
- Incredible battery capacity
- Optional Port Replicator for easy connection to all your peripherals

Connectivity

- Always connected to your emails
Wireless high-speed connectivity everywhere with embedded UMTS/HSDPA/HSUPA
- Integrated Intel® Wireless WiFi Link 4965AGN

Reliability

- Highest quality design with magnesium bottom
- Hard disk drive ShockSensor minimizes data loss and guarantees a higher reliability of your data
- Mechanical and function stability through extensive quality tests
- Special RecoveryButton and software solution for quick data back-up
- Spill-proof keyboard offers protection against system damage

Security

- Trusted Platform Module (TPM) authenticates system platform to ensure the highest level of data protection - a vault - like combination of an integrated security chip with sophisticated data encryption software.
- Biometric fingerprint sensor puts industry-leading data security at your fingertips. Swipe your finger or remember a single master password to keep all your system log-ins and data protected.
- Built-in SmartCard controller and SmartCase Logon+ software with best integration into your IT environment

Manageability

- Integrate the bundled system management software DeskView Admin in every common IT infrastructure.
- Seamless integration in heterogeneous enterprise management systems.
