

Fujitsu® M2010 Mini-Notebook

The Fujitsu M2010 Mini-Notebook brings a new class of low-cost, ultra-portable computing to the mobile world. Its 10.1 inch display, Intel® Atom™ Processor, light weight, and robust WLAN, provide a perfect platform for surfing the Internet, checking email, and other casual uses.

OVERVIEW

10.1 inch WSVGA, backlit display

Genuine Windows® XP Home

1 GB memory, 160 GB
5400 rpm hard drive

Intel® Atom™ Processor

Integrated webcam, microphone
and 802.11 b/g WAN

Bluetooth (V2.1) technology
provides for wireless personal
area network communication
with other Bluetooth
compatible devices.

Compact design

ENERGY STAR® qualified

Light weight, 2.5 lbs. w/3 cell
and 2.83 lbs. w/6 cell

BENEFITS

Power

- Intel® Atom™ Processor

Style

- Lightweight, and durable; designed for maximum mobility
- The perfect size—almost full size keyboard ample display, yet easy to transport
- Looks like a regular notebook computer.

Connect

- Easily connects to Wi-Fi spots in the airports, cafes or college campuses. The Atheros® Wireless LAN (802.11 b/g) and wireless LAN antenna helps assure a solid connection.
- Integrated Bluetooth allows connection wirelessly to other Bluetooth-enabled devices – transfer photos for editing or printing, listen to music with a wireless headset, transfer movies or files from your main PC, and more.
- Built in digital microphone and 1.3 mega pixel webcam adds a new dimension of fun in staying in touch with family, and friends.

Practical

- Great for students, and mobile professionals.
- Makes an excellent companion device to supplement your main PC.
- The mobile Intel® 945GSE Express Chipset provides power-efficient graphics and rich I/O capabilities. Also features an integrated 32-bit 3D graphics engine.
- 160 GB hard drive provides a surprising amount of storage for such a light-weight device.
- The Intel® Atom™ Processor was specifically designed for social networking, voice over IP, e-mail, messaging, browsing, and numerous other Internet activities as well as basic applications.
- Don't lug around your big expensive notebook and risk losing all your critical data to theft or damage. Use the Fujitsu M2010 Mini-Notebook for practically all of your mobile computing needs.

FUJITSU M2010 MINI-NOTEBOOK

1) Preinstalled with a free 60-day trial version of Symantec Norton Internet Security 2006. The 60-day trial version is activated upon user's acceptance of software license agreement. After 60 days, the user must purchase a subscription from Symantec to download latest virus definitions.

2) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.

3) Battery life estimates reflect the results of BAPCo MobileMark2007 Productivity Workloads performed upon systems with battery life setting enabled. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. DVD/CD-RW, DVD Writer, LAN, wireless LAN or hard drive usage may also have a significant impact on battery life.

4) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.
