Lenovo L27m Monitor

The Lenovo L27m-28 monitor provides an unobstructed viewing experience with the NearEdgeless screen. The Full-HD, large 27-inch screen offers enough screen real estate to have multiple working windows at once. The impressive and eye-catching display will be the centerpiece of your desktop, at home, or in the office. Apart from the latest USB-C single-cable solution, this monitor also features HDMI and VGA ports for versatile connectivity.

Seamless Viewing Experience

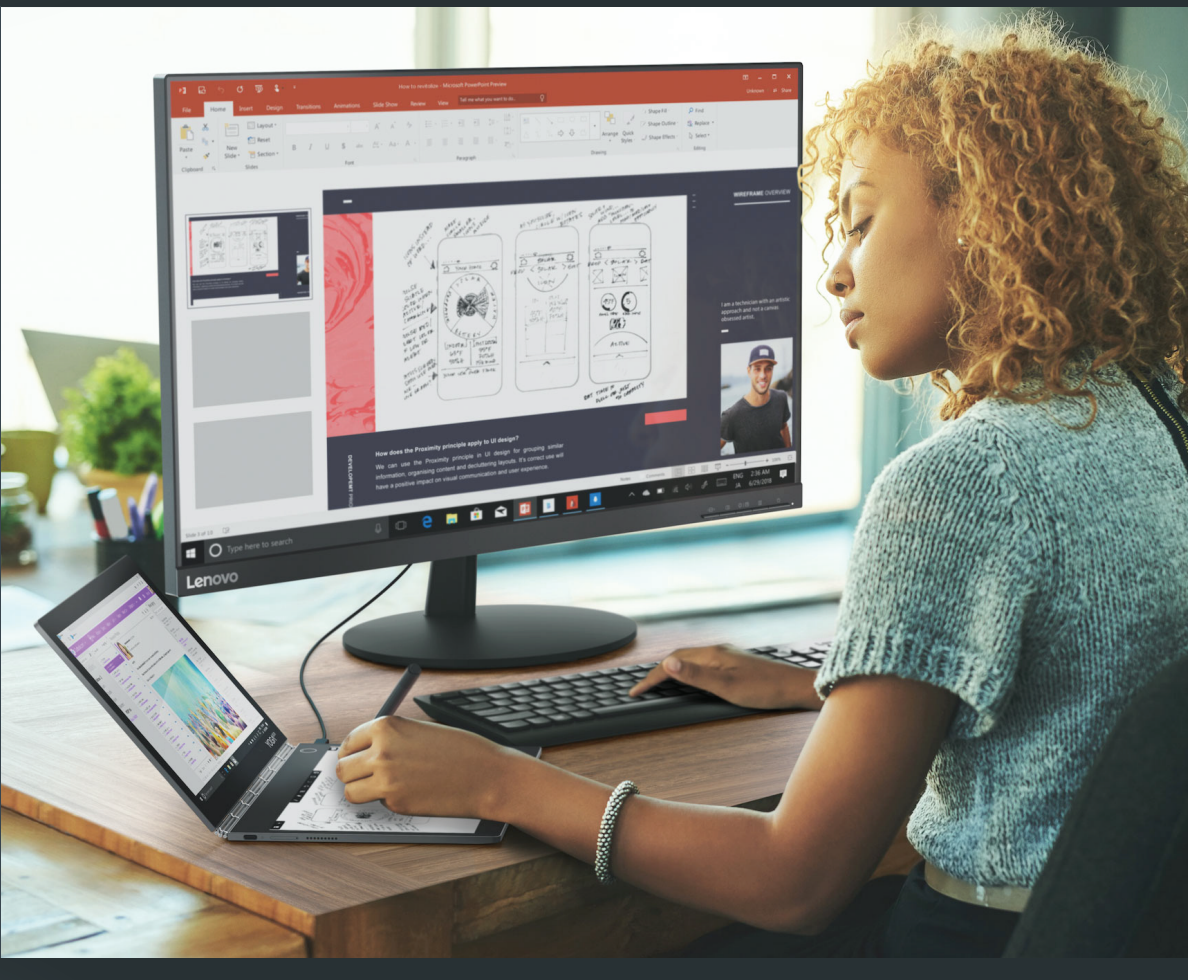

Single-cable Solution

The Lenovo L27m-28 quietly surpasses a typical monitor by reducing cable clutter while providing exceptional visual clarity. You can efficiently multitask by connecting the monitor using the single cable to power your mobile devices and simultaneously transfer data, audio, and video to your computing devices while enjoying the luxury of a large screen.

Exceptional Connectivity

This monitor features USB-C connectivity with a new, smaller connector that's reversible, so it's easier to plug in. USB-C has the power to charge laptops. They also offer twice the transfer speed of USB 3.0 at 10Gbps. This small yet powerful connector enables seamless connectivity to peripheral devices for multitasking with ease.

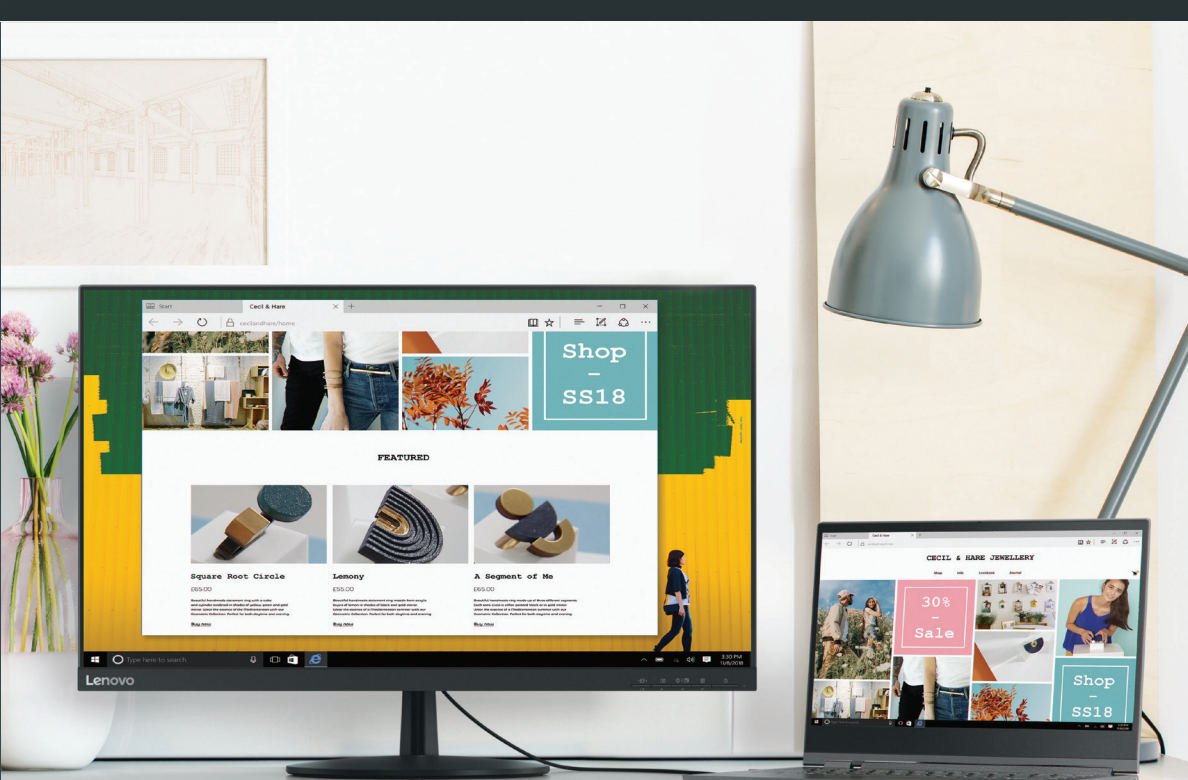

Clear and Detailed

The 27-inch NearEdgeless display with 1920 x 1080 pixels full-HD resolution provides exceptional visual clarity. Featuring a multitude of connectivity options such as HDMI 1.4, USB-C, and VGA, this monitor allows you to connect to just about any device. It is designed as 'plug and play' for all operating systems and is the best choice to deliver all shades of light and natural colors to create an immersive viewing experience. Every detail can be seen clearly with the AMD FreeSync™ technology that eliminates image stuttering and tearing.

User Comfort and No Strain

Video editors and graphic designers often spend long hours in front of the monitors. The flexible tilt angles allow you to position the monitor in a way that best suits your working style or posture without causing any stress. Work or play, eye fatigue is reduced with TÜV Eye Comfort certification. This feature allows you to control the blue light emission. The anti-glare display with the In-Plane Switching panel makes it a practical choice for every business environment.
