

ThinkCentre M70t Gen 6

Designed for modern business professionals who demand high performance and seamless multitasking, this ThinkCentre desktop, equipped with the Intel® Core™ Ultra 7 Processor (Series 2), delivers exceptional speed and responsiveness across intensive workloads. With integrated Intel® Graphics for everyday efficiency and optional discrete NVIDIA® GeForce RTX™ 3050 or Intel® Arc™ A310 LP graphics, this desktop is ideal for rendering complex models, analyzing big data, or editing high-resolution media. Its ability to support up to three independent displays through onboard ports (2x DisplayPort and 1x HDMI®), with additional support through discrete GPUs, enhances productivity for professionals managing multi-window workflows, real-time dashboards, or multi-application environments.

Empowering the modern workforce with a streamlined desktop experience

Whether you run a small business or a department of an enterprise, these desktops are built to handle every workload. Easy to manage, they offer great expandability, rapid processing, and seamless switching between multiple programs.

For business professionals who demand peak performance, this desktop delivers exceptional capabilities with its up to 128GB DDR5-5600 memory configuration. It enables seamless multitasking for data analysts running complex financial models, architects rendering 3D designs, and video editors processing 4K footage without bottlenecks.

The Smart Power On feature enables users to remotely wake their systems from sleep or powered-off states using convenient methods such as keyboard shortcuts or network commands. This functionality ensures enhanced system responsiveness and helps maximize productivity.

From advanced graphics to multiple I/O ports, the device is a perfect mix of onboarding premium design and features at an affordable price.
