

34MP1

Gaming Monitor Pro

34MP1 Gaming Monitor Pro

Experience gaming on a grand scale with the Gaming Monitor Pro 34MP1.

Its display offers a captivating curved design that draws you into the heart of the action. With a 21:9 aspect ratio on a 34-inch curved monitor, every battle, adventure, and cinematic experience feels realer than ever before.

Stunning HDR 1000 visuals bring your games to life on a screen with a resolution of 3440x1440 – enjoy vibrant colors, deeper blacks, and brighter highlights that provide full immersion. The wide 21:9 aspect ratio provides a panoramic view, allowing you to see more of the game world and appreciate intricate details like textures and character models.

With the monitor's powerful front audio system, you can hear everything with crystal-clear clarity, adding an extra layer of fascination to your gaming experience. Thanks to customizable RGB lighting, you can create an atmosphere that matches your gaming style.

Whether you're a seasoned gamer or a casual enthusiast, the Gaming Monitor Pro 34MP1 is designed to deliver an exceptional gaming experience with its rapid 180 Hz refresh rate and 1 ms response time, ensuring instant response to any on-screen action.

The 34MP1 is all about exceptional performance, stunning visuals, and crisp audio. It's designed to deliver a gaming experience that will leave you wanting more.

CURVED DESIGN

1500R curvature creates a more immersive viewing experience by drawing your eyes closer to the center of the screen. This reduces peripheral distractions and helps you focus on the action, making games feel more cinematic. The design also reduces eye strain by minimizing distortion at the edges of the screen.

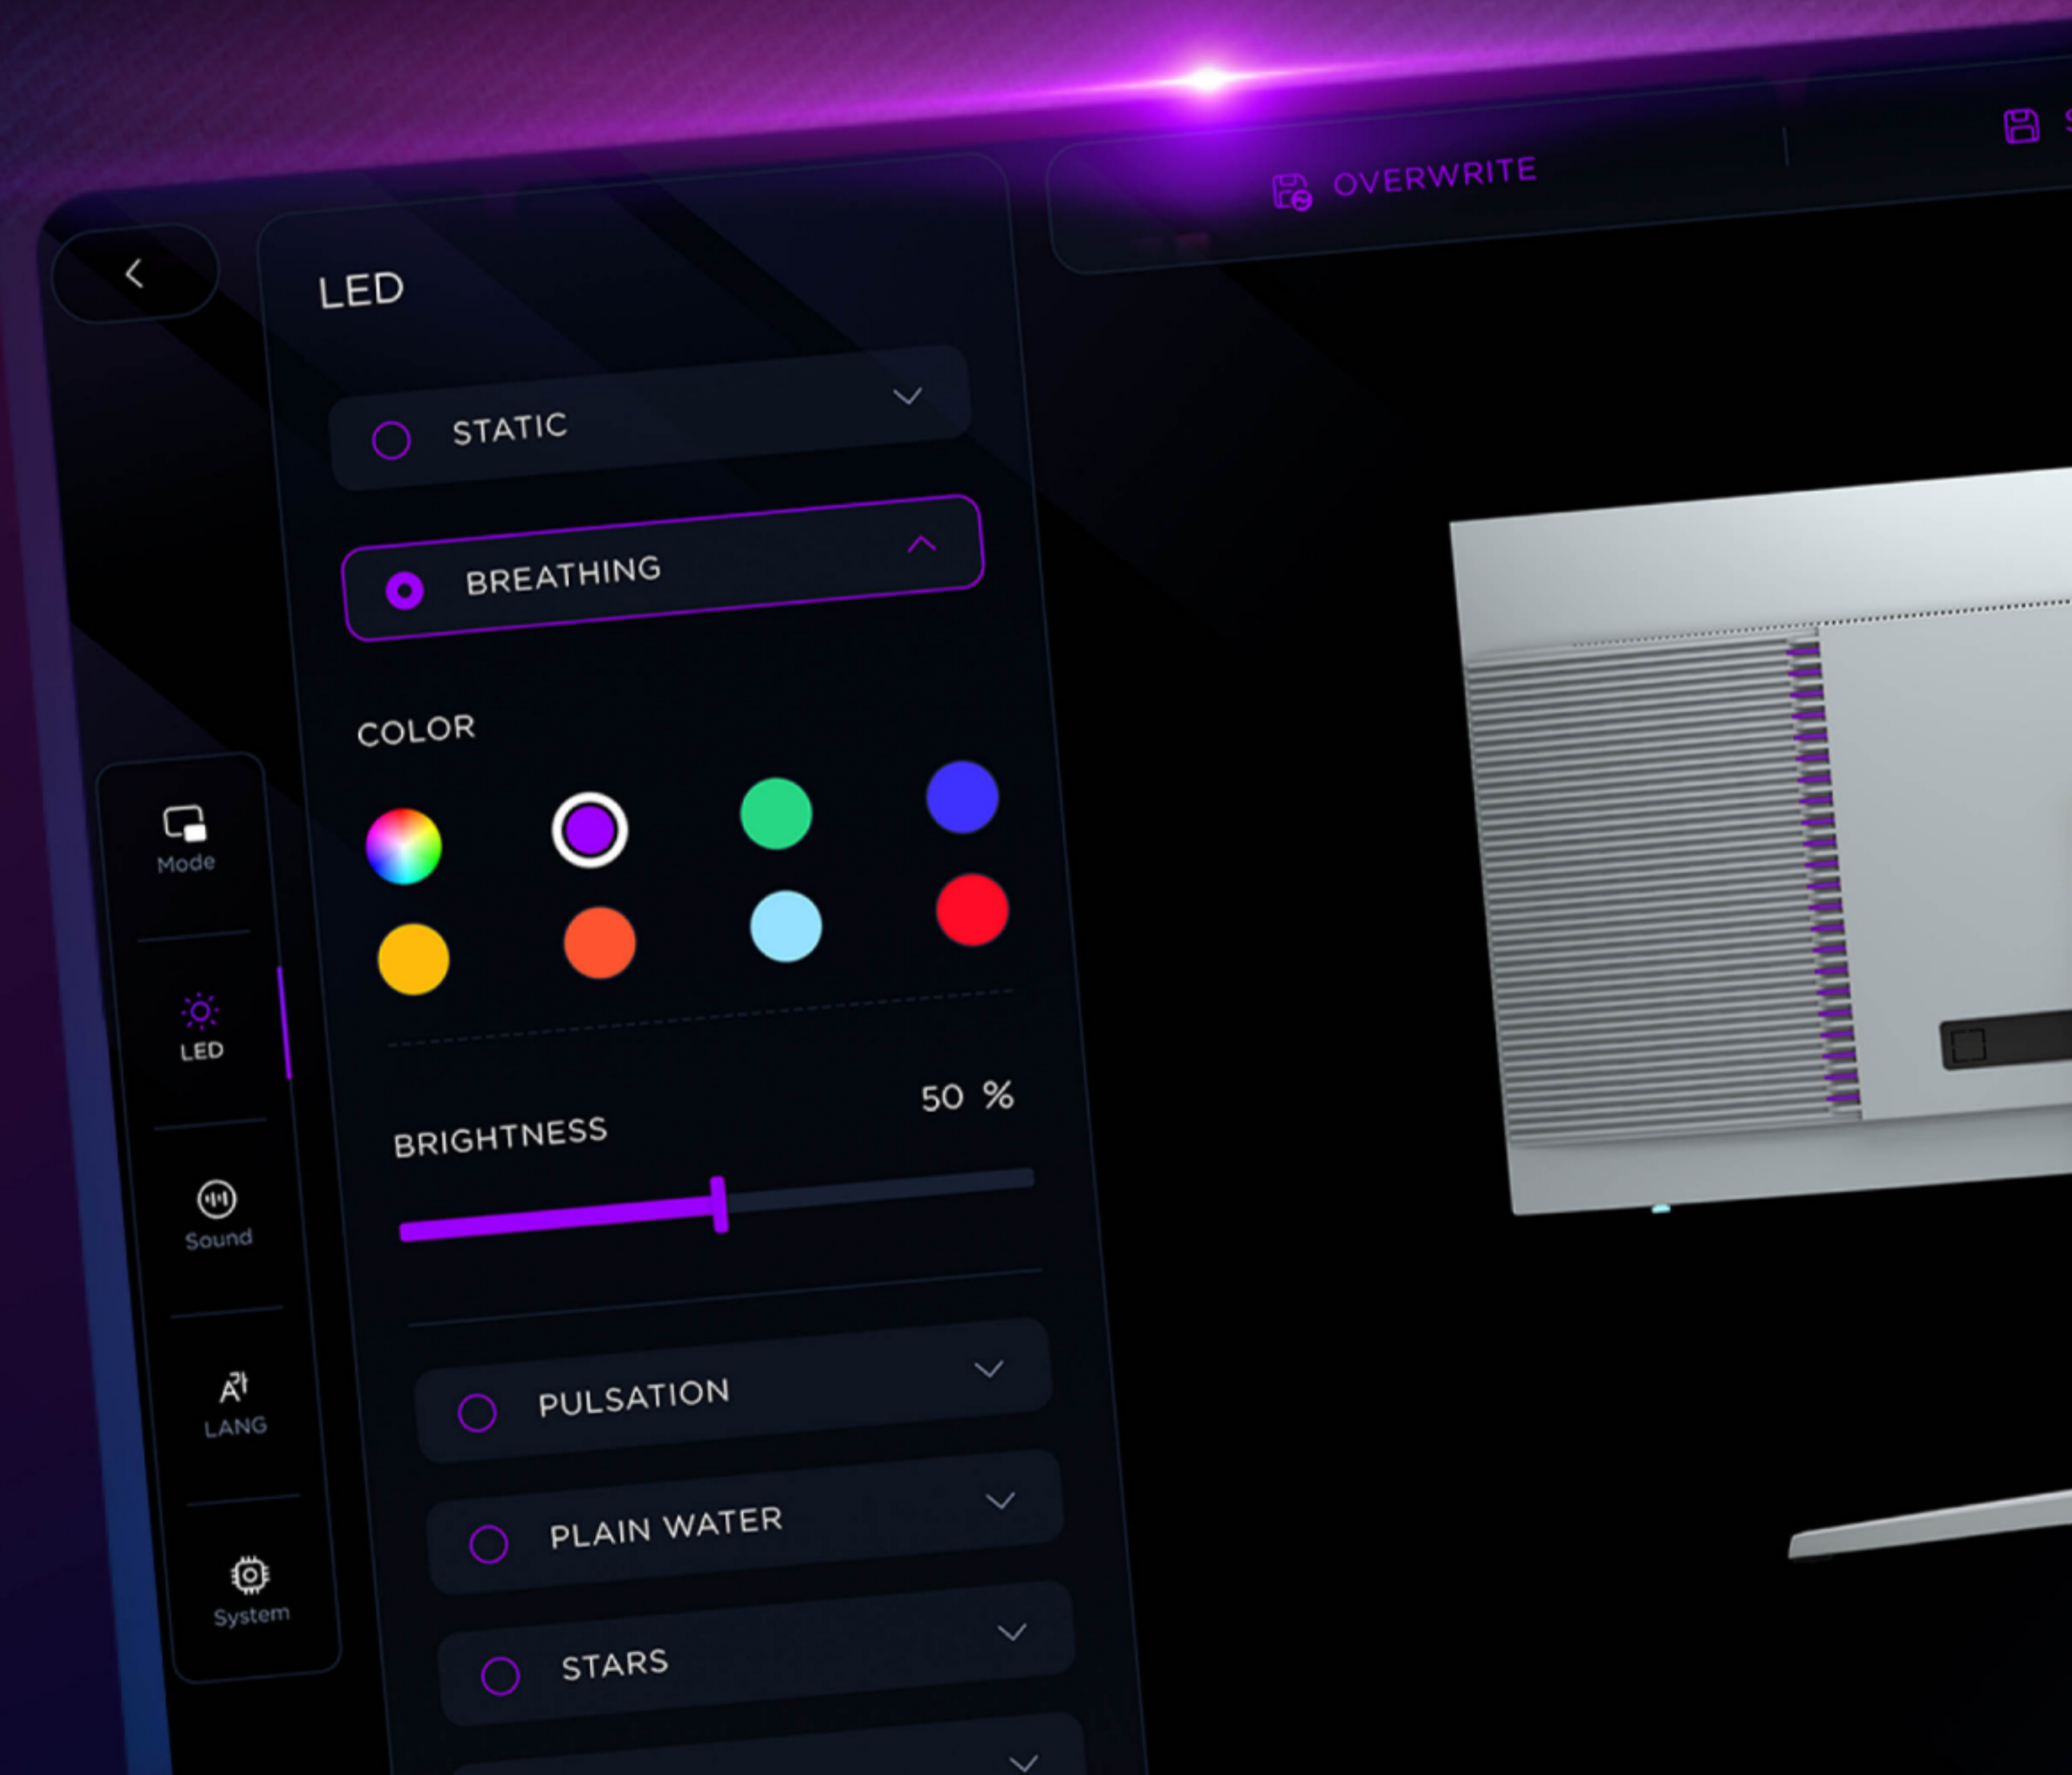

MINI LED BACKLIGHT

The 34MP1 features a MiniLED backlight with 2304 local dimming zones, allowing for precise control of light intensity in different screen areas.

LORGAR PLATFORM

Take control of your gaming experience with the LORGAR PLATFORM. This software allows you to customize lighting effects, adjust monitor settings, and access exclusive gaming features, such as crosshair overlays and FPS counters.

HDR 1000

HDR 1000 technology enables a wider range of colors and brightness levels, resulting in a more vivid picture. You'll experience deeper blacks, brighter whites, and more vibrant colors, making games and movies look more lifelike than ever before.

WIDESCREEN FORMAT

The 21:9 aspect ratio provides a wider field of view, giving you a more panoramic perspective of the game world. This is especially beneficial for games that require a wider field of vision, such as racing games, flight simulators, and strategy games.

POWERFUL AUDIO

Immerse yourself in the action with built-in front speakers and rich audio output. The powerful 2.1-channel speaker system delivers clear, crisp sound, making games and movies more engaging and enjoyable.

CUSTOMIZABLE RGB LIGHTING

Create a personalized gaming atmosphere with customizable RGB lighting. You can choose from a variety of lighting effects and colors to match your mood or style. The customizable lighting also helps reduce eye strain by providing a more comfortable viewing environment.

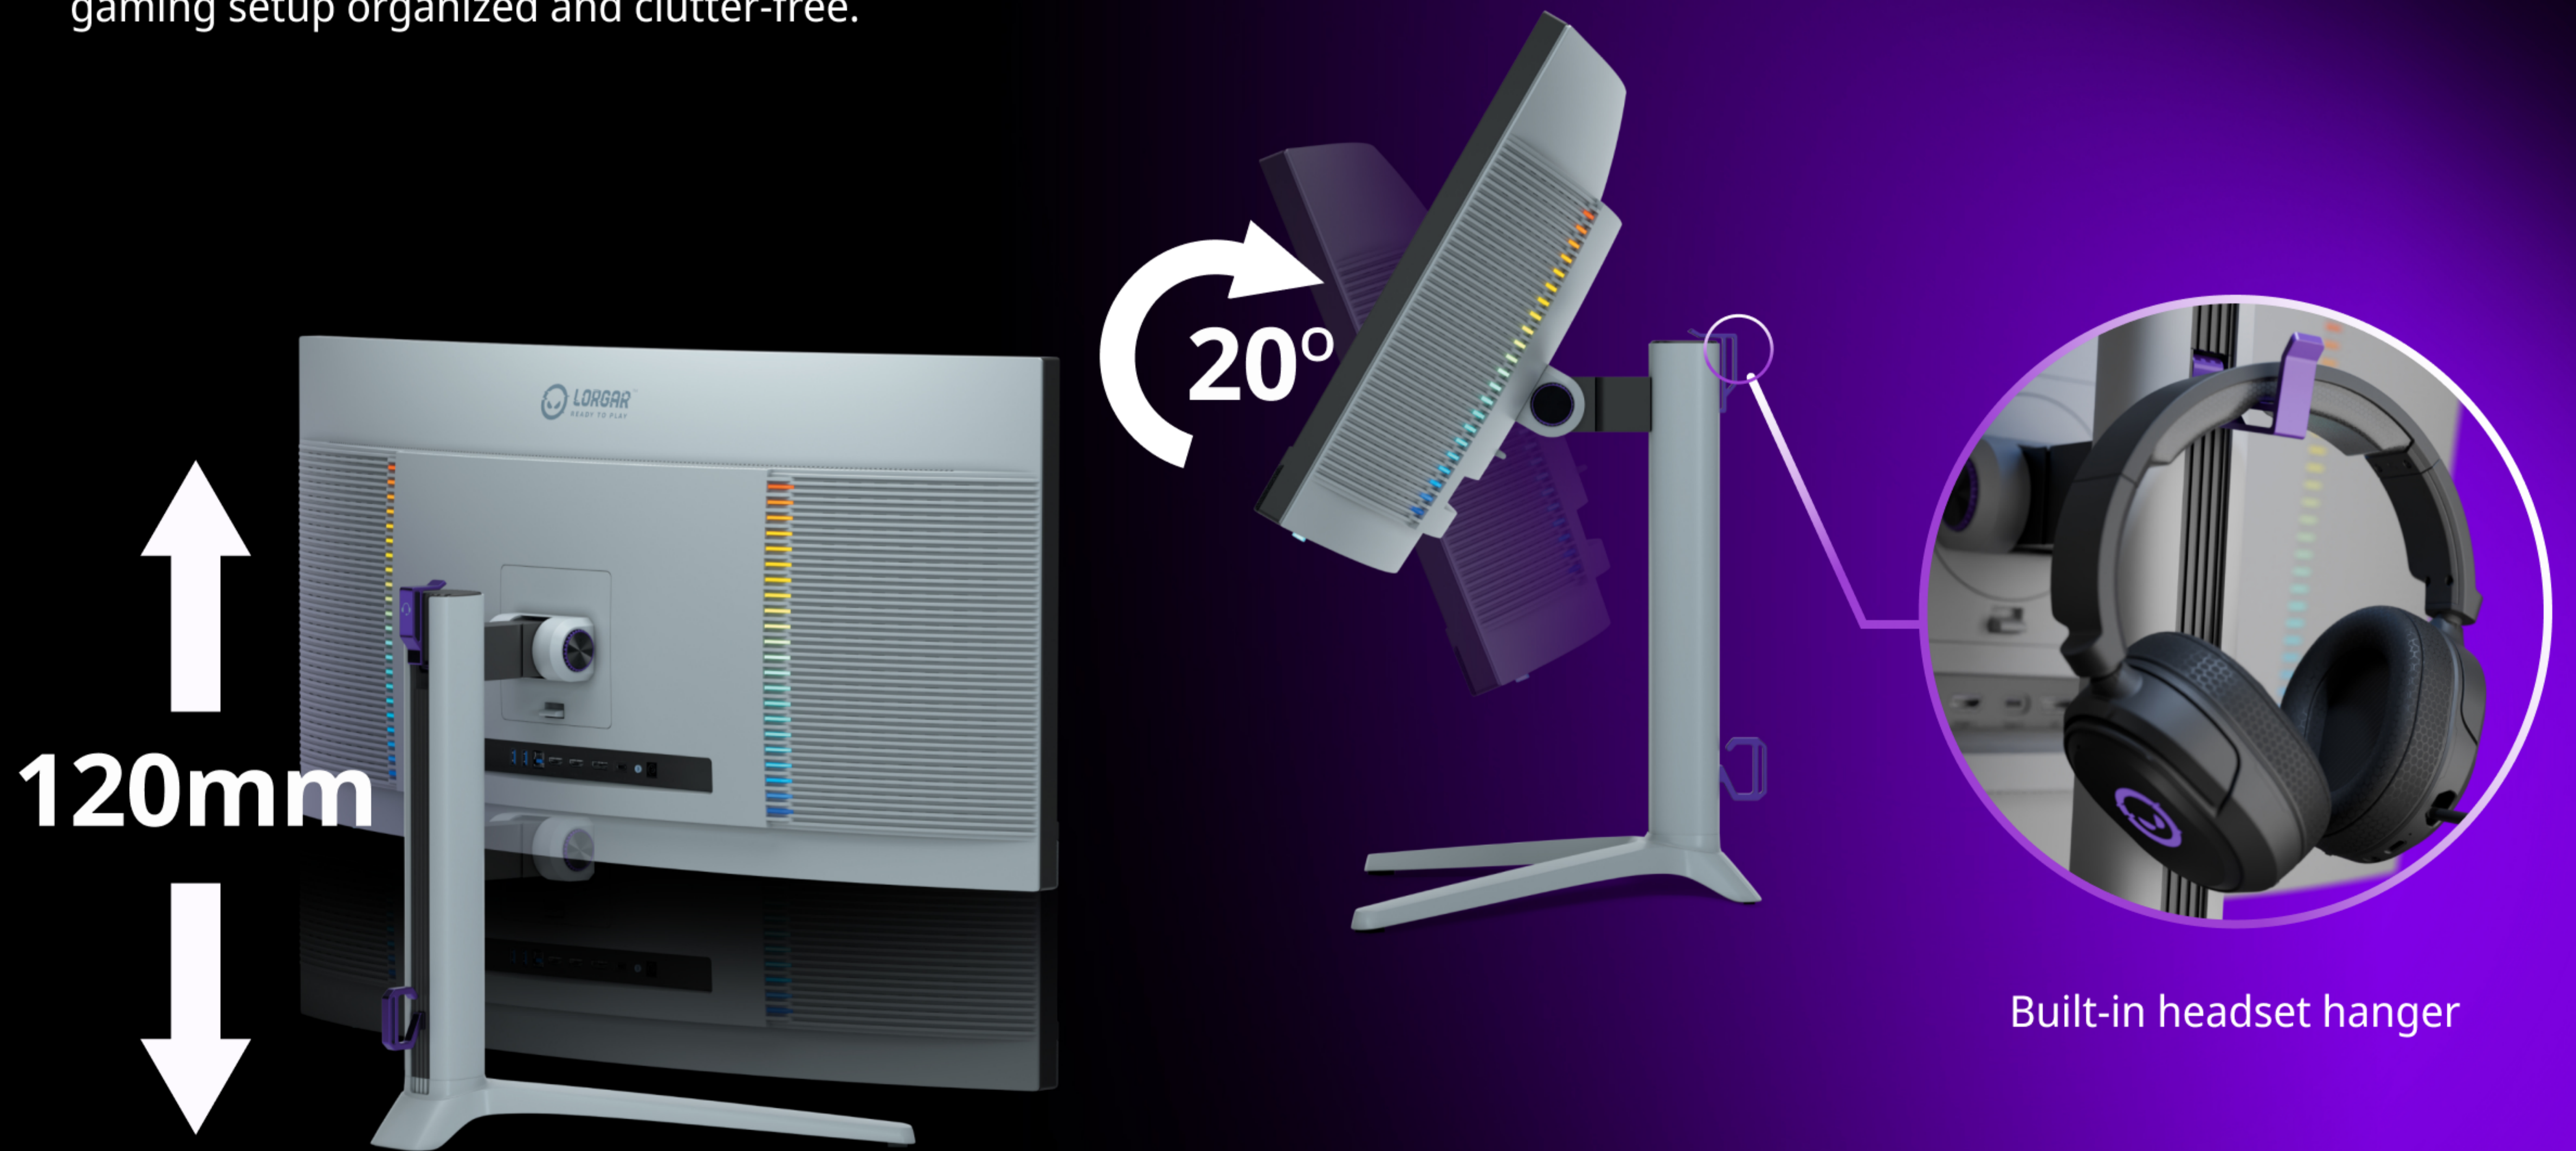

GAMING PRESETS

The monitor features optimized settings for different genres, such as First-Person Shooters (FPS) and Real-Time Strategy (RTS) games. With a single key press, you can switch between these modes to optimize the monitor's performance for your preferred gaming style.

ERGONOMIC DESIGN

The fully adjustable stand provides maximum comfort and flexibility. You can easily tilt, swivel, and adjust the monitor's height to match your needs. No more eye strain and fatigue during long gaming sessions! The built-in headset hanger also helps keep your gaming setup organized and clutter-free.

ARRAY OF PORTS & EASY CHARGING

Enjoy the freedom of using any port you might require: 2×HDMI 2.1 ports, 1×DP 1.4 port, USB A/B/C ports, and 1×Audio Out are all there. Besides, you can conveniently charge devices up to 90 W through the Type C connector.
