

Mio Spirit 490 LM

The new Spirit 490 LM is packed with practical features and comes with Lifetime Map Updates, so you never have to worry about new maps or road changes anymore. The Spirit 490 LM will guide you to the new streets and addresses without hesitation. Simply connect the Spirit 490 LM to your PC and install the MioMore desktop software to check when updates are available. You will receive new maps for the lifetime of your device, up to four times a year*.

IQ Routes™ uses real-life information collected from millions of drivers to optimize the route that is calculated: giving you the optimal way, any time of day. The enhanced LearnMe Pro™ monitors and learns your driving style, providing you with personalised routes to suit your preferences. You will see the improvement in your routes and estimated time of arrival on the screen.

The Spirit 490 LM has been designed to make getting to your destination a lot easier. The Parking Assistance feature automatically shows a list of parking spaces when you are within 1km of your destination, so you don't have to search for a nearby car park. To find where you want to go quickly and easily, Keyword Search works in the same way as you search online: simply enter any word and it brings up results in order of their proximity to your current location.

The Spirit 490 LM also allows you to quickly access your personal favourites by saving them under Near Me. So if you often visit Italian restaurants, you can list them here for even faster access. The smart feature 'Find My Car' will be a big help if you park your car in a hurry, with no idea where you parked it upon return. Just take the device with you when you leave your car and it will help you find your car easily.

> Key Features
