

# Distinguish your presentation and yourself in brilliant 3LCD colour

Give your presentation that star quality it deserves with the L301 data projector. The advanced 3-chip LCD technology delivers images that are of the highest quality, realistic and sharp. Colours are not only natural, but also bright and filled with detail. Present with the Samsung L301 and get the attention you deserve.

## Clear, focused images

You can select between wide screen (16:9) and normal screen (4:3) sizes to help you present perfectly focused images that fully fit your needs.

## H/V Keystone capability

Keystones occur when a projector is not placed exactly in the centre of a projection screen, causing image stretching and distortion. When the projector is placed either above or below centre, Vertical Keystones occur. Horizontal Keystones occur when the projector is at an angle either to the left or right of centre. The Samsung Projectors offer effective Keystone Correction, compensating for imprecise projector placement and delivering perfectly presented projections that appear accurate and exact. Vertical

## Powerful stereo sound

Keystone Correction is in-built on all models; Horizontal Keystone Correction is included on the L301.

## Comprehensive connectivity

The Samsung projectors are the ultimate professional data projectors. With powerful built-in stereo speakers (3W x 2), they exude an air of complete professionalism that adds depth and resonance to presentations.

## Low noise

The Samsung projectors come equipped with a full range of input options that allow you to connect with a full range of digital multimedia devices. The HDMI (High Definition Multimedia Interface) enables the highest resolution images to be transmitted with 100% integrity for a truly breathtaking visual experience.

Noise level is almost inaudible in normal living environments. User satisfaction is maximised with low noise design that meets highest standard.
