

Product Specification Sheet

Multiplier Backpack

Part #: TSB119EU

Product Description:

[This product is also available in a silver/grey/pink version](#)

Worn to be wild.

The Targus Multiplier Backpack incorporates both style and function. The combination of fabrics and textures used gives the backpack tactile appeal, and coloured rubber dimples add an attractive finish to the base. Colour highlights compliment the grey and silver base colour of the outer. With the injection of vibrant green the backpack boasts a striking look. Concealed zippers give a smooth finish to the outer contours.

Easy to reach front and side pockets mean you can keep whatever you need close to hand when you are on the go. The front pocket zips down to reveal a clever mesh pouch which will save the contents from falling out. Keep your belongings safe with zip closure side pockets – one side has a lined device pocket with a headphone port, ideal for your digital music player. The strengthened grab handle on the top of the backpack makes it easy to pick up while you are on the go.

The backpack has a large main compartment designed to carry your laptop, gaming equipment and other personal belongings. Spread the weight of a heavy load with the adjustable chest strap, with elasticated section to help achieve the perfect fit.

Product Features and Specifications:

- Comfort: 3D air-mesh lets your back breath; deluxe moulded padding; and adjustable shoulder and chest straps give comfort on the move
- Protection: Padded notebook laptop section with elastic restraining strap for protection (up to 15.4" screens)
- Organisation: Zip down front section reveals workstation and various pockets for easy organisation
- Music on the go: Digital music device pocket with headphone port. Feed your headphone wires through the port so you can keep the zip pocket securely closed during use
